Model 870 TAC-14
(Available in 12- and 20-gauge)

Model 870 TAC-14
Marine Magnum

Model 870 TAC-14 DM

MODEL 870 TAC-14

It's the most powerful 26.369" of personal defense on the planet. The all-new Model 870 Tac-14 firearm delivers devastating, threat-stopping power to protect your home and family. Built with legendary Model 870 reliability, a Raptor pistol grip and Magpul M-Lock forend, it's personal protection at its absolute shortest – and finest. Look for our full line of Tac-14s inside. *Page 32*

SHOTGUN PARTS

From buttstocks to barrels, new magazines and grips to gas system parts, you'll find everything you need to upgrade and optimize your Remington shotgun inside. *Page 184*

PREMIER EXPANDER

Delivering 2 3/4" and 3" of magnum-caliber terminal performance plus AccuTip level accuracy, Premier Expander is the hardest-hitting, most deadly accurate slug load to hit the whitetail woods this season. *Page 136*

RIFLES

MODEL 700 PCR (Precision Chassis Rifle)
Delivers it's legendary Model 700 precision from its rock-steady shooting base. Adjusts to you and your shooting preferences in every way. *Page 50*

**MODEL 700 5R
THREADED GEN 2**

The legendary strength and accuracy of our Model 700, further enhanced by high-precision 5R rifling. *Page 52*

**MODEL SEVEN
THREADED**

Weighing in at 5.5 pounds, the epitome of quick-handling bolt-actions, now with a threaded muzzle for easily adding a suppressor. *Page 68*

**MODEL 783 HBT
(Heavy Barrel Threaded)**

Our renowned bolt-action workhorse, now with a threaded muzzle with a 16.5" barrel for use with a suppressor. *Page 70*

**MODEL 597 KRYPTER
THREADED**

The pinnacle of semi-auto rimfire speed and accuracy, with a threaded barrel for whisper-quiet sound suppression. *Page 74*

HTP COPPER

All copper, pure devastation. Its four cutting petals deliver enormous terminal performance, and near 100% weight retention, every time. *Page 122*

HANDGUNS

REMINGTON RP45
Maximum capacity. Complete control. Combining one of the highest .45 ACP capacities with a slim, ergonomic grip to redefine shootability. Also available with Tritium night sights. *Page 92*

**REMINGTON RM380
LIGHT BLUE / BLACK**
The same shootability and control found in every Model RM380, in durable and handsome light blue and black finish. *Page 100*

MODEL 1911 R1 HUNTER FDE
Delivers 10mm knock-down power with superb accuracy via its 6" stainless match-grade barrel. A host of precision and sure handling features, and its tough PVD DLC finish make it the ideal hunting performer in all conditions. *Page 106*

**GOLDEN SABER
BLACK BELT**
Trusted by law enforcement, available to you. Golden Saber Black Belt delivers reliable expansion – as tested through FBI barrier testing protocols. *Page 154*

REMINGTON R51 SMOKE
The R51 Smoke delivers utmost subcompact reliability, shootability and a sleek new look. *Page 96*

**MODEL 1911 R1 ULTRALIGHT
EXECUTIVE**
Maximum 1911 strength and reliability, with minimum ounces. Featuring Tritium sights, 3.5" barrel, rounded frame and G10 laminate grips. *Page 104*

MODEL 1911 R1 RECON
Legendary 1911 performance, upgraded and enhanced with Tritium night sights, G10 laminate grip and checkered front strap in 9mm and 45 auto. *Page 112*

**PERFORMANCE
WHEELGUN**
Consistency, accuracy and iron clad reliability. Take your Revolver and Lever Rifle skills to the next level. Available in popular pistol calibers. *Page 158*

**REMINGTON RM380
BLUE/SILVER**
Available in distinctive blue/silver, the diminutive-yet-powerful RM380 delivers unrivaled accuracy, reliability and control. *Page 100*

**MODEL 1911 R1 ULTRALIGHT
COMMANDER**
Its aluminum frame cuts 30% off the weight of steel, while its long list of enhanced features add substantially to accuracy, handling and shot-to-shot consistency. *Page 104*

**MODEL 1911 R1 ENHANCED
DOUBLE STACK**
With a 15-round 45 Auto Double Stack magazine, it's more than double standard Model 1911 capacity. Its match barrel, adjustable rear sight, adjustable trigger and other enhanced features add superior accuracy and control to every shot. *Page 116*

HANDGUN PARTS
Elevate your handgun's performance, and your own, with the enhanced control of G10 Laminate grips and the lowlight visibility advantage of Tritium night sights. *Page 190*

THE HELLISH TREATMENT EVERY REMINGTON GOES THROUGH TO GET TO YOUR HANDS.

Every aspect of every component of every firearm we build is tested and selected to deliver the ultimate in durability. Finishes are scrutinized at the molecular level under an electron scanning microscope to determine how they will react to salt, moisture, frost, heat and grit.

Each new Remington product is developed, built, tested and refined as a 3D virtual model, before it becomes a working prototype. With this technology, our engineers can test thousands of details, which are, improved and retested – using some of the world’s most sophisticated product development software. These systems are calibrated to produce the highest levels of accuracy. Legacy products originally designed as physical blueprints, have now been converted digitally using the same programs to ensure identical precision and consistency.

+ + + +

And once a physical prototype is built, it’s torture tested to past 1.5 times its service life. For example, 1.2 million rounds of ammunition were fired through the development phase of the R51 handgun alone. Speaking of ammunition, we have stepped up our quality assurance spot checks with more frequent monthly, weekly, daily sample tests than ever before.

The result? Firearms and ammunition of the tightest tolerances, highest level of precision, and greatest quality we, or any other firearms manufacturer has ever produced. From the hands of our craftsmen, R&D specialists and engineers, to yours.

THE VERSA PORT ADVANTAGE

CYCLES ANYTHING. CHANGES EVERYTHING.

AT THE HEART OF EVERY VERSAMAX AND V3 SHOTGUN IS A REVOLUTIONARY GAS PISTON SYSTEM THAT IS CHANGING THE WAY WE THINK ABOUT RECOIL.

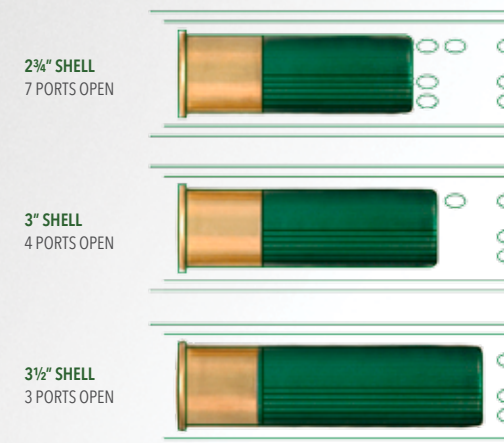

The patented VersaPort system is able to reduce the felt recoil of a 12-gauge shotgun to that of a 20-gauge thanks to a series of gas pistons and strategically placed ports that self-regulate gas pressure depending on the length of the shell. The result is consistent, reliable cycling from the sporting clays course to the goose blind.

From light 2¾-inch loads to heavy 3½-inch magnums, the VersaPort system cycles every load with flawless consistency because only the precise amount of gas required to operate the rotary bolt is delivered. On top of that, the VersaPort system is self-cleaning, meaning reduced maintenance and more time to shoot.

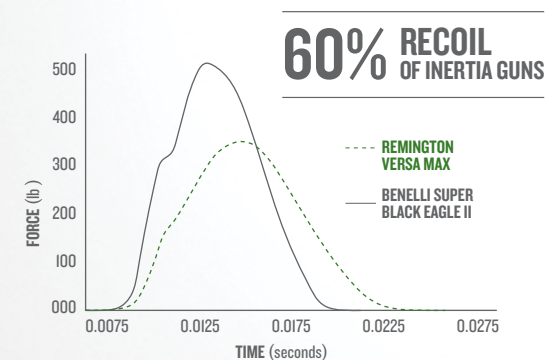

VERSA MAX

THREE CUSTOM-TUNED ACTIONS
INGENIOUSLY DISGUISED AS ONE.

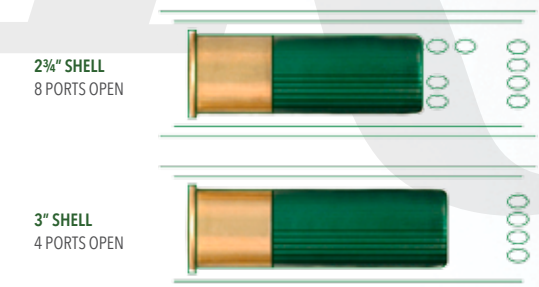

LESS RECOIL.

VERSA MAX produces dramatically less recoil than the Benelli Super Black Eagle II.

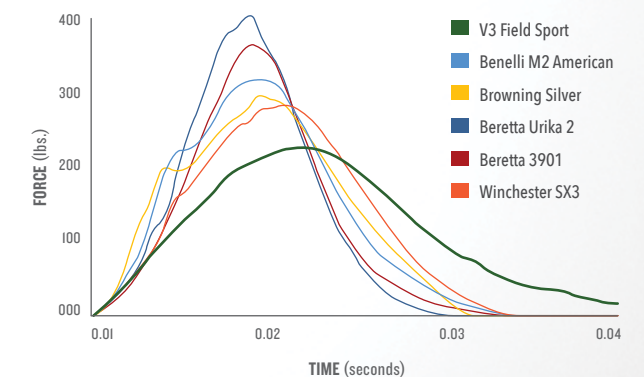

V3 FIELD SPORT

THE V3 DELIVERS DRAMATICALLY LESS RECOIL VERSUS STANDARD AUTOLOADERS.

V3 FIELD SPORT VS. COMPETITOR PRODUCTS

The softest-recoiling auto in the field.

NEVER-SAY-DIE DEPENDABILITY.

Tested and proven with thousands of rounds.

In an extreme torture test, our engineers fed it thousands of rounds without cleaning.

VERSA MAX

VERSA MAX
WATERFOWL PRO

VERSA MAX WATERFOWL PRO FEATURES

- Most versatile, reliable shotgun on the market
- Reliably cycles 12-gauge rounds from 2¾" to 3½" magnums
- VersaPort gas system regulates cycling pressure based on shell length
- Reduces recoil to that of a 20-gauge
- Self-cleaning – continuously cycled thousands of rounds in torture test
- Enlarged trigger guard opening and larger safety for easier use with gloves
- Nickel plated barrels
- Nickel-Teflon® plated internal components offer extreme corrosion resistance
- Length of pull kit to extend length by 1"
- Fully adjustable stock for drop-cast-LOP-comb insert

ANY LOAD. ANYWHERE. EVERY TIME.

VERSA MAX, the new standard for reliability in autoloading shotguns. Powered by our revolutionary VersaPort gas-operated system, VERSA MAX shatters convention and all previous benchmarks for reliability. Proven in extreme endurance tests with thousands of rounds, VERSA MAX cycles any 12-gauge load with flawless consistency, dramatically reduced recoil and less maintenance than any autoloader ever. Equipped to take the flyways by force, the **VERSA MAX Waterfowl Pro** is decked in Mossy Oak® Shadow Grass Blades Camo, and features oversized controls, an enlarged feeding port and more. The **VERSA MAX Competition Tactical** is outfitted with the features top competitors demand, like a green Cerakote receiver, oversized controls, an enlarged feeding port and more. And the unstoppable reliability of VERSA MAX now fits comfortably in a southpaw's hands with **VERSA MAX Left Hand** models. Available in Realtree® Camo or Black Synthetic. Shoulder the ultimate power of VERSA MAX and you'll never look back.

VERSA MAX SPORTSMAN

THE UNSTOPPABLE AMERICAN WORKHORSE.

The engineers at The Rock changed the world of autoloader design forever when they created the VERSA MAX - and then they boldly did it again when they unveiled the VERSA MAX Sportsman. A hard-working, streamlined version of our breakthrough VERSA MAX, yet driven by the same relentless heart. VersaPort. Our revolutionary, self-regulating gas system, that flawlessly cycles any 12-gauge load - from light 2¾" to the heaviest 3½" magnums. Along with its unstoppable, self-cleaning design, it reduces the felt recoil of a 12-gauge load to that of 20-gauge pump gun. Meaning faster, smoother followups, more comfort and simply better shooting. Here to take the woods, fields and flyways by force, the Sportsman is available in 5 configurations. Get your VERSA MAX Sportsman in standard black with a 26" or 28" barrel, or decked in Mossy Oak® Duck Blind or Realtree® AP HD camo coverage. The VERSA MAX Sportsman Turkey sports Mossy Oak Obsession camo and a highly maneuverable 22" barrel. Any load. Anywhere. Every time. For every application.

NITRO STEEL
The steel more wingshooters choose, now in higher velocities and higher payloads. Premium, zinc-plated pellets deliver tighter patterns and more dead birds. See page 142.

VERSA MAX SPORTSMAN
BLACK SYNTHETIC

VERSA MAX SPORTSMAN BLACK SYNTHETIC FEATURES

V3 FIELD SPORT

V3 FIELD SPORT WALNUT

OUR LAND. OUR AUTOLOADER.

We're proud to say the finest autoloaders in the world aren't made in Italy, Belgium or Japan. They're built right here. With the addition of the lightweight, 3-inch-capable V3 to our lineup, every possible hunting or sporting application is now under the reign of our VersaPort gas system. The V3 incorporates the system's unfailing reliability and super-soft recoil into a sleek platform with the athletic handling and pointability that have made Remington autos an icon in the field. From light 2¾" target loads to the hardest-hitting 3" mags, it cycles them all with the same unrelenting consistency. Choose from durable synthetic stocked models in all black or decked butt to bore in Mossy Oak® Blades camo. For traditional good looks, the V3 is also available with American walnut woodwork and a rich satin finish. All models with synthetic stocks are compatible with an adjustable length-of-pull system to create a custom fit for any shooter. It's the next generation of the most enduring, most innovative legacy in autoloaders. Built in the land where the best shotgun wins.

NEW

V3 ACCESSORIES

Choose from several new Mossy Oak camo patterns to give your V3 the ultimate in concealment. See page 184.

Mossy Oak Break-Up Country

V3 FIELD SPORT WALNUT FEATURES

- World-class autoloader performance, made in America
- VersaPort gas system for flawless, dependable cycling and super-soft recoil
- Reliably cycles all 2¾" and 3" 12-gauge loads
- Self-cleaning design promotes extreme reliability
- Perfectly balanced for effortless pointability
- Walnut stock with satin finish for classic All-American Styling
- Crisp target style trigger
- The combination of any shell performance, light weight and lack of recoil make the V3 the most versatile autoloader you can buy

TRIGGER GUARD AND CONTROLS

SELF-CLEANING VERSAPORT SHORT-PISTON-STROKE GAS OPERATING SYSTEM

OUTDOOR LIFE GUN TEST

REMINGTON V3 FIELD SPORT

By John B. Snow, Shooting Editor

OUTDOORLIFE

V3 FIELD SPORT

This new semi-auto is an outstanding mid-priced shotgun both in terms of the performance it delivers and the value it represents.

The V3 has a 3-inch chamber and runs on a short-stroke gas-piston system similar to that of Remington's flagship VERSA MAX gun; but, in truth, it is more refined. The V3's action is robust, durable, easy to maintain, and soft shooting.

The action is also compact. Its short length, in addition to the design of the stock, makes the V3 a natural shooter. It points fast, tracks smoothly, and breaks clays and downs birds with impressively consistent competence.

With its good recoil management and 7.5-pound weight, it is a shotgun you can haul all day and put hundreds of rounds through without getting beat up. It isn't pretty (future models

will have better aesthetics), but despite its homely looks, it rose to the top in a competitive field to earn honors as both our Editor's Choice and our Great Buy — an unusual and impressive double win.

Reprinted with permission from our friends at Outdoor Life. Originally published June/July 2015.

The V3 rose to the top in a competitive field to earn honors as both our Editor's Choice and our Great Buy — an impressive double win.

MODEL 11-87

MODEL 11-87
SPORTSMAN FIELD

MODEL 11-87 SPORTSMAN FIELD FEATURES

- Wood and satin blued configuration
- Solid walnut stock and fore-end with satin finish and fleur-de-lis checkering
- 12-gauge with 28" barrel and mod choke, 20-gauge with 26" barrel and mod choke

NITRO PHEASANT LOADS

One of the most potent pheasant loads on the market. Uses our Copper-Lokt shot for deep penetration and consistent patterns. See page 150.

A SPORTSMAN FOR ALL SEASONS.

No matter the season, the Model 11-87 Sportsman answers the call. Built to our legendary standards for autoloader performance, each features the unrivaled speed, reliability and smooth operation that have made this platform a standout for more than a quarter century. As timeless and versatile as the American sportsman, the **Model 11-87 Sportsman Field** offers classic looks that are complimented with an all-around versatility for clays, field and upland hunting. It comes with a handsome, satin-finish walnut stock and fore-end with cut fleur-de-lis checkering, and is available in 12- and 20-gauge versions, with 2¾" and 3" capability.

MALFUNCTION • CLEANING • BREAKAGE:
MORE THAN 24,000

MODEL 1100

MODEL 1100
COMPETITION

THE ULTIMATE COMPETITIVE ADVANTAGE.

Chosen by millions across the nation for its exceptionally soft recoil and sleek pointing characteristics, the Model 1100 has been dominating the competitive scene for over 50 years. The Model 1100 Competition features an action optimized for 2¾" target and light field loads, a fully adjustable stock, plus a handsome, nickel-Teflon® finish on the receiver and all internal parts for the smoothest, most reliable cycling possible.

MODEL 1100 COMPETITION FEATURES

- Twin target-style bead sights
- Polished nickel finish on receiver
- Nickel-Teflon® coated internals
- Adjustable comb and cast adjustment options
- Includes full set of five Briley (Target) ProBore choke tubes: skeet, improved cylinder, light modified, modified and full
- Recoil reducing stock

PREMIER NITRO SPORTING CLAYS

A long-time favorite of trap and skeet shooters thanks to their 1300 fps velocity, pattern uniformity and "reloader-friendly" design. Pair your Model 1100 with this for an extra competitive edge. See page 148.

MODEL 1100
CLASSIC TRAP

THE MOST FAMOUS AUTOLOADER OF ALL TIME.

More than 50 years since it was first introduced, the Remington Model 1100 has cemented its name as the most popular autoloader in history. And it is still the choice of countless competitive shooters nationwide – for its proven-reliable Model 1100 action, superior handling qualities and rich tradition. One of the most successful competitors ever, the **Model 1100 Classic Trap** provides serious shooters all of the time-tested features of the Model 1100 field guns, but optimized to handle 2¾" target and light field loads. Ivory front bead and steel mid-bead sights provide for ease of target acquisition and improved followups. And it features a B-grade, American walnut stock with handsome high-gloss finish and cut checkering. The **Model 1100 Sporting Series** shotguns are quick to impress and sweet to shoot. Gold triggers and a custom Premier Sporting hard case complete the package. If you haven't already, shoulder this and you'll soon see why the Model 1100 is America's favorite.

MODEL 1100 CLASSIC TRAP FEATURES

- Twin bead target sights
- Polished blued receivers and barrels
- Semi-fancy American walnut stocks and fore-ends
- High gloss wood finish with cut checkering
- Gold-plated triggers

TACTICAL

VERSA MAX
COMPETITION TACTICAL

BOOST YOUR SCORES. DEFEND YOUR TURF.

For competition or personal defense, no challenge is too great for Remington tactical shotguns. Our lineup includes some of the most trusted and popular shotguns in the industry, each fine-tuned for your specific tactical application. The flagship is the **VERSA MAX Competition Tactical**. We started with our VERSA MAX Tactical, then outfitted it to meet the 3-gunner's demands. Features include an 8-shot magazine with a carbon-fiber, two-shot extension; oversized controls for handling with gloves; green Cerakote receiver; an enlarged loading port for faster reloads; express dovetail sights and more. Built on the ever-reliable Model 870 platform, the **Model 870 Express Tactical Magpul**, **Model 870 Express Tactical 20-gauge**, and **Model 870 Express Tactical 6-Position**, join our line-up of tactical workhorses for 2018. With features like 18.5", 6 + 1 capacity and adjustable tactical stocks, they deliver the edge you can count on when you need it most.

VERSA MAX TACTICAL

MODEL 870 SPS MARINE MAGNUM

ULTIMATE DEFENSE BUCKSHOT

These new 12-gauge loads deliver a higher level of stopping power when you need it most. Available in standard and in managed recoil. See page 157.

VERSA MAX COMPETITION TACTICAL FEATURES

- Most versatile, reliable shotgun on the market
- Reliably cycles 3" 12-gauge rounds
- VersaPort gas system regulates cycling pressure based on shell length
- Reduces recoil to that of a 20-gauge
- Self-cleaning - continuously cycled thousands of rounds in torture test
- Enlarged trigger guard opening and larger safety for easier use with gloves
- Nickel plated barrels
- Nickel-Teflon® plated internal components offer extreme corrosion resistance
- Length of pull kit to extend length by 1"
- Fully adjustable stock for drop-cast-LOP-comb insert

MODEL 870

WORKHORSE WITH A HEART OF STEEL.

Starting with a receiver machined from an 8½-pound billet of steel might not be the easiest way to build a shotgun, but the end result is well worth the extra effort. No other pump shotgun can match the Model 870's strength and smooth, effortless operation. Its legendary reliability is the heart of its popularity, as evidenced by the more than

12 million outdoorsmen, law enforcement officers, competitive shooters and home defenders who have chosen the never-say-die pump gun since its introduction in 1951. That same reliability has made the Model 870 one of the most adaptable shotgun designs ever, and the best-selling shotgun of all time.

MODEL 870 DM

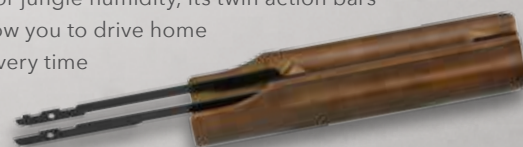

It's the fastest response time of any pump shotgun in history, and the only magazine-fed shotgun built on the world's strongest, smoothest, and most reliable pump gun platform.

NEW

TWIN ACTION BARS

With symmetrical support on either side of its slide, the Model 870 delivers smooth, sure cycling in even the most adverse conditions. Whether in arctic cold, desert heat or jungle humidity, its twin action bars prevent binding and allow you to drive home the bolt with certainty every time you shuck the forend.

MODEL 870 DM
MAGPUL

STACK THE ODDS IN YOUR FAVOR.

Introducing the only magazine-fed shotgun built on the pedigree of the world's strongest, smoothest, and most reliable pump shotgun. Featuring a detachable magazine system and fire controls designed from the ground, up available with 3-, and 6-round mags. It's the fastest response time of any pump shotgun in history, and the ultimate choice for a home defense shotgun. The **Model 870 DM** features a bead sight, black synthetic stock, corn cobb fore-end, SuperCell recoil pad, while our **Model 870 DM Magpul®** sports a Magpul SGA stock and fore-end, 18.5" barrel with Rem Choke, and tactical rail with ghost ring sights. The **Model 870 DM Predator's** ShurShot over-molded stock, and corncob fore-end deliver exceptional handling and stability. Features a 12-gauge 18.5" Rem Choke barrel with 2 Trulock chokes, and comes with 3-, and 6-round mags. The **Model 870 DM Hardwood** sports a tactical hardwood stock and fore-end. And the **Model 870 DM Tactical** brings 12-gauge authority courtesy of a Rem Choke barrel with ported tactical choke, corn cobb tactical fore-end, pistol grip tactical stock, and XS ghost ring sights with tactical rail.

NEW

MODEL 870 TAC-14

THE SHORTEST ALLOWABLE DISTANCE BETWEEN POWERLESS AND PREPARED.

Small in size, but huge on home defense capability, the Model 870 Tac-14 firearm delivers devastating, threat stopping power to protect your home and family. Featuring legendary Model 870 reliability, a Raptor pistol grip and Magpul® M-lock fore-end, it's powerful personal protection at its absolute shortest - and finest. Our new **Model 870 Tac-14 Hardwood** sports a hardwood grip and fore-end, while the **Model 870 Tac-14 Arm Brace** offers the sure handling of a Magpul M-Lock fore-end. The **Model 870 Tac-14 Marine Magnum** packs 4+1 rounds of 12-gauge in just 14 inches. Fully nickel coated internals and externals deliver all-weather durability. For more manageable recoil, the **Model 870 Tac-14 20 Gauge** brings 20-gauge wallop courtesy of a Mesa tactical Lucy adaptor. And with its detachable magazine, the **Model 870 Tac-14 DM** adds 6 rounds of 12-gauge backup when you need it most.

MODEL 870 WINGMASTER

MODEL 870
WINGMASTER

THE GREATEST OF ALL TIME.

It's the strongest, smoothest and most reliable pump shotgun ever conceived, and it's still ahead of its time 66 years since its introduction. With a receiver machined from a solid billet of steel, the Model 870's sleek, bulletproof design remains the standard by which all other pump guns are measured. The fore-end glides effortlessly on twin action bars for positive chambering and ejection. The gun mounts, swings and points like an extension of your body. Consider that this unmatched combination of form and function has been produced in dozens of versions for every pursuit, and it's no wonder that the Model 870 is the best-selling shotgun in history with more than 12 million made. New for 2018, the **Model 870 Wingmaster Claro** matches the beauty of high polished metal, and high-gloss claro walnut stock and fore-end with the 12-gauge performance of our light contour 26" barrel that includes 3 chokes.

MODEL 870 WINGMASTER FEATURES

- America's most trusted pump shotgun
- Twin-action bars for remarkable action and durability
- The smoothest pump-action shotgun on the market
- Superior balance, handling and looks
- Points, swings and functions better than anything else in its class
- A wide array of barrel and choke options make versatility

AMERICAN CLAY & FIELD

A devastating combination of the best features of our world-champion target loads and on-game performance that's equally effective on feathers and clay. See page 146.

THE LEGEND OF MR. 870

HOW ONE OF THE GREATEST SHOTGUNNERS EVER POPULARIZED THE GREATEST PUMP SHOTGUN EVER MADE.

If you were to draw a two-circle Venn diagram, with one circle representing the sport of trap shooting and the other circle representing the Model 870 pump shotgun, you likely would struggle to find many common elements. After all, most trap shooters' shotgun of choice is typically either an over-under or a semi-automatic. However, one man's name is sure to show up in the overlap: Fred R. "Rudy" Etchen, aka Mr. 870.

Etchen, the son of Trap Shooting Hall of Famer Fred E. Etchen, started his competitive shotgunning career as a teenager in the 1930s. He would go on to win scores of trophies at competitions around the world in the decades that followed, and with a variety of guns. But it was in 1950 when Rudy earned the moniker by which he would come to be known. That year, he took one of the first dozen 870s ever produced to the Grand American Trap Championships and became the first person ever to break a registered 100 straight in trap doubles with a pump gun. As if that feat were not remarkable enough on its own, 32 years later - and with that same 870 - he registered another 100 straight in doubles at the 1982 Louisiana State Shoot.

MODEL 870 SPS

MODEL 870 SPS
SUPER MAGNUM TURKEY
PREDATOR W/SCOPE

AN AMERICAN ICON, TURNED LONG-RANGE SPECIALIST.

The Model 870 SPS Super Magnum. The most popular slide-action of all time, engineered to deliver long-range payloads to turkeys and deer with deadly precision. It's an all-American icon of reliability taken to the next level of application-specific innovation. The **Model 870 SPS Super Magnum Turkey Predator** combines full camo concealment and super-magnum range. The ShurShot pistol grip stock with overmolds enables ambidextrous handling and pointability. The 20-inch barrel is topped with a TRUGLO® red/green selectable illuminated sight on a Weaver rail, making it a truly specialized turkey hunting platform. Plus, it handles 2¾-, 3- and 3½-inch 12-gauge loads. A black padded sling and a Wingmaster HD Turkey/Predator Rem Choke are included. The 12-gauge **Model 870 SPS ShurShot Synthetic Super Slug** sets a new standard for deer-pounding accuracy. The, one-inch-diameter, 25½-inch-long barrel is pinned to the receiver to control harmonics and shot-to-shot variation. Longitudinal flutes minimize weight and heat buildup while enhancing barrel rigidity. Parabolic Ultragon rifling grooves with 1-in-35-inch twist optimize slug flight. The ambidextrous ShurShot pistol-grip synthetic stock with rubberized overmoldings promotes superior pointability and buttstock includes a SuperCell recoil pad. The receiver is drilled and tapped, and a Weaver rail and cling swivel studs are included.

NITRO TURKEY

Bird-hammering performance at an outstanding value. See page 152.

MODEL 870 SPS SUPER MAGNUM TURKEY PREDATOR FEATURES

- 28" barrel with Rem Choke
- All-weather synthetic stock and fore-end
- Mossy Oak Shadow Grass Blades full camo
- Shoots 2¾", 3" and 3½" shells
- Super Cell recoil pad

100% ALL-AMERICAN.

No imported parts. No aluminum. Just 100% pure American muscle. And with 12 million unleashed into the woods, fields and flyways since 1951, the Model 870's reign as this nation's favorite shotgun continues uncontested. The reason is simple - it remains the most advanced, smoothest shooting pump shotgun on the planet. Shot after shot, the pump slides seamlessly on twin action bars for positive chambering and ejection. And the receiver is machined from solid steel, for unrivaled strength and reliability.

PREMIER EXPANDER

Delivering 2¾" and 3" of magnum-caliber terminal performance plus AccuTip level accuracy, Premier Expander is the hardest-hitting, most deadly accurate slug load to hit the whitetail woods this season. See page 136.

A NEW ERA OF PRECISION AT REMINGTON.

OVER THE PAST 18 MONTHS, WE'VE UNDERGONE THE MOST SIGNIFICANT TRANSFORMATION IN OUR 201-YEAR HISTORY AS AMERICA'S GUNMAKER.

It's a company-wide shift to Aerospace precision that's pushing Remington firearms innovation to higher levels of performance than ever before. As a hunter or shooter, it's reassuring to know, because when you're capable of more, you can achieve more. And these new offerings are only the first examples of our new commitment.

Like Remington firearms 5R rifling found on most new Model 700 rifles. With its asymmetrical lands and tapered grooves its engineered to create a superior gas seal and reduce bullet deformation. And our New Model 700 PCR (Precision Chassis Rifle) – a fully optimized system to stretch your effective range and shrink your groups like no other production rifle in the world today. It not only claims sub-MOA accuracy, each rifle ships with its own sub-MOA confirmation, in the form of a Computer Aided Target System (CATS) printout.

From new tactical configurations, to big-game, varmint and rimfires, and across every category, you'll find products built with advanced materials, more durable finishes, and new innovative features like suppressor-ready threaded muzzles. All firearms backed by our new Lifetime Warranty that comes with every Remington firearms manufactured from 2016 on – from our hands to yours.

COMPACT / YOUTH

THE INDUSTRY'S FINEST SELECTION OF COMPACT SHOTGUNS AND RIFLES.

Remington is committed to the future of hunting and shooting. And because young shooters are more apt to continue with the shooting sports if they start with a gun that fits them properly, we crafted our standard, premium-grade stocks with a shorter length of pull, then fit them to some of our finest firearms. All synthetic compact firearms feature our adjustable length-of-pull kit. This kit grows with youngsters, and also helps smaller-framed adults tailor their firearm to their specific builds. These guns feature the world's most effective recoil pad, the SuperCell. It's standard equipment on all Compact firearms to ensure maximum shooting comfort. All **Model 870 Express Compact** shotguns are equipped with 21-inch barrels, while the **Model 700** rifle has a 20-inch barrel.

ADJUSTABLE LENGTH OF PULL KIT INCLUDED WITH COMPACT FIREARMS

Our Adjustable Length of Pull Kit is included with all synthetic compact firearms. The kit offers a full 1" adjustment, so any compact model can be custom-fit to shooters of smaller-frame and grow alongside youngsters – all the way up to the standard LOP. See pages 182.

KIT INCLUDES:

- Two ¼" LOP spacers
- One ½" LOP spacer
- Corresponding screw lengths to accommodate 3 different lengths
- Full 1" adjustment
- SuperCell recoil pad

MODEL 870 EXPRESS
COMPACT CAMO

MODEL 870 EXPRESS COMPACT CAMO FEATURES

MODEL 700 & MODEL SEVEN

CENTERFIRE SUPERIORITY

AVAILABLE IN FULL-SIZE AND COMPACT

For 55 years and counting, the benchmark in bolt-action reliability, strength, and out-of-the-box accuracy has been the Remington **Model 700**. With more than 5,000,000 sold to date, no other rifle has been so consistently relied upon to defend our freedoms, protect our communities, and fill our game tags.

That same pedigree of consistency and dependability is also available in a more nimble configuration, the **Model Seven**. Shorter and lighter than the 700, its receiver is based on that of its big brother. And with chamberings up to 300 WSM, it's the ideal choice for tight-quarters handling when sacrificing firepower simply is not an option.

EXTERNALLY ADJUSTABLE TRIGGER

It breaks like glass, has virtually zero creep and offers a level of shot control unmatched by any factory trigger today. The X-Mark Pro externally adjustable trigger delivers true custom-grade performance in a production trigger and is user-adjustable with readily available tools. Not that you'll feel the need. It comes from the factory user adjustable from 3.5 to 5 lbs. While others use gadgets and add-ons to hide inconsistencies, Remington eliminates them with state-of-the-art manufacturing techniques and the tightest possible production tolerances.

HAMMER-FORGED BARRELS

All Model 700 and Model Seven rifles feature cold hammer-forged barrels. The method of hammer forging produces stronger barrels than any other barrel-making process. It also ensures excellent barrel-to-barrel consistency. All Model 700 and Model Seven barrels have exacting bore and rifling dimensions, as well as a carefully tuned exterior contour.

SUPERCCELL RECOIL PAD

The product of more than 10 years of R&D, the Supercell Recoil Pad found on Model 700 and Model Seven rifles is proven to reduce felt recoil by an astounding 54 percent over standard factory pads. It's one more way we help you focus on your target and eliminate distractions that can rob you of accuracy.

Remington's "three rings of steel" envelop the case head in a recessed bolt face, inside the barrel shank, inside the receiver. It's a strong design, widely copied. With Remington's hammer forged barrels, it's also a proven path to one-hole groups. During the Model 700's first decades, the trigger could be adjusted for weight of pull (lower front screw).

The rifle's moon-shaped beryllium extractor is stronger than it looks, and unlike the Mauser claw, requires no cut in the receiver or barrel. Remington's clip has won in shear tests against side-mounted

hooks and contacts more of the case rim. In 40 years, I've never had a Model 700 extractor fail.

I'm pretty sure I shot the first elk taken with the .300 Short Action Mag. in Idaho's Frank Church Wilderness, after descending into a cliff-rimmed canyon. I crept close to a herd. But the bull had vanished! Then a twig broke above me. Out of position as antlers appeared, I hurried the shot – and muffed it. Charitably, the bull held as I cycled the bolt and sent a bullet true. That short .300 is still one of my favorite big-game rounds.

THE SWEETHEART WITH 3 RINGS OF STEEL

BY WAYNE
VAN ZWOLL

- 1 Recessed bolt face completely encloses cartridge head for maximum protection against case rupture.
- 2 Barrel surrounds bolt shroud for additional strength.
- 3 Barrel threaded into receiver machined from hardened steel.

LOCKTIME Its ultrafast locktime of 2.5-3.0 milliseconds is the best in the industry today, minimizing the effects of shooter movement for greater shot-to-shot consistency.

HAMMER-FORGED BARRELS Of all methods, this produces the strongest barrels with unmatched consistency. Model 700 barrels have exacting bore and rifling dimensions and a carefully tuned exterior contour.

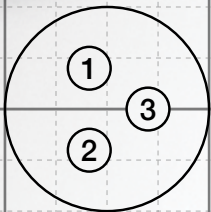

MODEL 700 PCR (PRECISION CHASSIS RIFLE)

NEW

MODEL 700 PCR

SUB-MOA ACCURACY CONFIRMED BY 'CATS' MEASUREMENT.

Every Model 700 PCR is shipped with a printout confirming its sub-MOA accuracy using our Computer Aided Targeting System (CATS), the same system utilized on Remington PSR Rifles for the U.S. Military.

SYSTEMATICALLY ELEVATING THE WORLD STANDARD FOR ACCURACY.

More than a rifle, a fully optimized system that'll stretch your effective range and shrink your groups like no other production rifle in the world today. The all-new **Model 700 PCR** (Precision Chassis Rifle) pairs the strongest action ever conceived – our legendary Model 700 – with an exclusive aircraft-grade aluminum alloy chassis of unmatched rigidity and atmospheric immunity to create the most stable and consistent platform possible for launching long-distance strikes. It's a potent combination made even more effective with a host of accurizing upgrades that include a 24" barrel with 5R rifling, free-floated in an aluminum handguard, plus a completely user-configurable Magpul PRS Gen 3 stock for the ultimate in comfort from any shooting position. Its sub-MOA accuracy is confirmed using our advanced CATS (Computer Aided Targeting System) before it ever gets to you. But the best part is confirming its tack-driving superiority for yourself. Available in three popular long-range chamberings including 6.5 Creedmoor, 308 Win, and 260 Remington.

MODEL 700 PRECISION CHASSIS RIFLE FEATURES

- Remington Chassis
- 24" barrel with 5R rifling
- Threaded muzzle with protector
- Tactical bolt knob, for swift, positive cycling
- X-Mark Pro externally adjustable trigger
- Aluminum handguard with SquareDrop
- Picatinny rail
- 5-round Magpul detachable magazine
- Adjustable Magpul® PRS Gen 3 stock
- Magpul pistol grip
- 3-shot sub-MOA assurance

5R BARREL ENHANCEMENT

Specially designed for superior gas seal and reduced bullet deformation, for improved accuracy.

**MODEL 700
TACTICAL**

**THE NEXT
GENERATION OF
TACTICAL PRECISION.**

This year, Remington engineers are taking the strength and precision of the Model 700 action to new levels of hair-splitting accuracy with the latest additions to our tactical lineup. Introducing the Remington **Model 700 Magpul Enhanced**. Its Magpul Hunter stock with Magpul M-Lok mount and folding bipod serve as a rock-solid base for your best long-range performance yet. Its 20" heavy barrel with 5R rifling, delivers added stability and precision, and comes with a threaded muzzle and protector for ease in adding a suppressor. The **Model 700 SPS Tactical Coyote** sports a nails-tough Coyote Tan Cerakote Finish and also comes with a threaded muzzle. And the **Model 700 Long Range Stainless**, **Model 700 Stainless 5R**, **Model 700 Stainless 5R Threaded**, and **Model 700 Stainless 5R Threaded Gen 2** deliver the superior accuracy of Remington's exclusive 5R rifling in a variety of stocks and threaded and non-threaded configurations to choose from.

ACCEPTS AAC®
SILENCERS

Silencers are legal to own in 42 states according to the ASA.

BUILDING UPON A TACTICAL LEGACY.

Remington rifles built on the Model 700 action continue to make their mark at the front lines of combat and the firing lines of local shooting ranges. Adding to that reputation of tactical superiority in 2018, we proudly introduce the Remington **Model 700 Magpul**. Its Magpul Hunter Stock is made of reinforced polymer and features an anodized aluminum bedding block. It's designed to fit any shooter thanks to an adjustable length-of-pull kit and three comb-height inserts. The free-floated, 22-inch carbon threaded, steel barrel has a Cerakote finish, and 5R rifling means reduced fouling and improved accuracy. The **Model 700 Tactical Chassis**, equipped with an MDT TAC21 Chassis System is ergonomic and highly customizable. Featuring a TriNyte-coated stainless steel barreled action and a Bell and Carlson stock, the **Model 700 XCR Tactical Long Range** is a durable extended-range rifle. The **Model 700 XCR Compact Tactical** is its short-action counterpart with a 20-inch barrel. The **Model 700 SPS Tactical** offers tack-driving precision in a fast-handling package, threaded models accept AAC flash hiders, muzzle brakes and silencers.

MODEL 700 BIG GAME HUNTING RIFLES

THE EVOLUTION OF AN AMERICAN LEGEND.

The Remington Model 700 is an icon in every way. Its accuracy and dependability remain the standard more than half a century since it was unveiled. That superior performance is represented in the diverse lineup you see here. The **Model 700 AWR (American Wilderness Rifle)** meets extreme weather head-on with extreme precision. A nail-tough Cerakote® finish applied to its stainless steel components provides the ultimate in corrosion resistance. A favorite of the high country, the **Model 700 Mountain Rifle SS** combines a sleek 22-inch Mountain Contour barrel and a Bell and Carlson aramid-fiber-reinforced stock for an overall weight of just 6½ pounds. The ever-popular **Model 700 CDL SF** showcases a blend of traditional looks with the added performance of a 24" fluted barrel and stainless steel finish. The **Model 700 CDL** is available in either a high-polish blued finish or our satin finish. More than 50 years old and stronger than ever, the **Model 700 BDL** is an all-time bestseller. All cataloged models feature our X-Mark Pro externally adjustable trigger.

- MODEL 700 AWR FEATURES**
- 416 stainless steel barreled action with Cerakote finish to protect against corrosion, abuse and the harshest elements
 - 24" or 26" free-floated barrel
 - 5R rifling, for reduced fouling and improved accuracy
 - High-end, pillar-bedded Grayboe stock will stand up to any amount of abuse
 - X-Mark Pro externally adjustable trigger

MODEL 700 VARMINT/ PREDATOR

BECOME A LEGEND IN YOUR OWN RIGHT.

Three-shot groups that drop jaws. Long-range shots that split hairs. True to their reputation, our legendary Model 700 Varmint rifles will earn you one. Each member of this family is engineered to deliver varmint-crushing devastation with tactical efficiency. The **Model 700 VTR** comes in a Flat Dark Earth stock with black rubberized overmold grip panels, while the **Model 700 VTR Stainless Steel** has a black stock with gray overmold. Both also include a tactical bolt knob, Picatinny rail and bipod. The **Model 700 SPS Varmint** has a heavy contour, 26-inch barrel and SPS Varmint stock. The **Model 700 Varmint Stainless Fluted (SF)** has a heavy contour barrel with six longitudinal flutes for rapid cooling and less weight, with a concave target-style barrel crown for even greater consistency. And the **Model 700 VLS** features a richly blued finish, heavy contour barrel and a distinctive laminated stock, contributing to its status as a long-time favorite.

PREMIER ACCUTIP-V

World-renowned pinpoint accuracy and explosive on-game results take varmint lethality to a new level. See page 128.

MODEL 700 VTR FEATURES

- 22" barrel with integrated muzzle brake design and triangular barrel contour
- Available in FDE stock with carbon steel barrel and black overmold grips, or black stock with stainless steel barrel and gray overmold grips
- X-Mark Pro externally adjustable trigger
- Picatinny rail
- Bipod
- Oversized bolt handle

REMINGTON MODEL 700 VTR

By American Rifleman staff

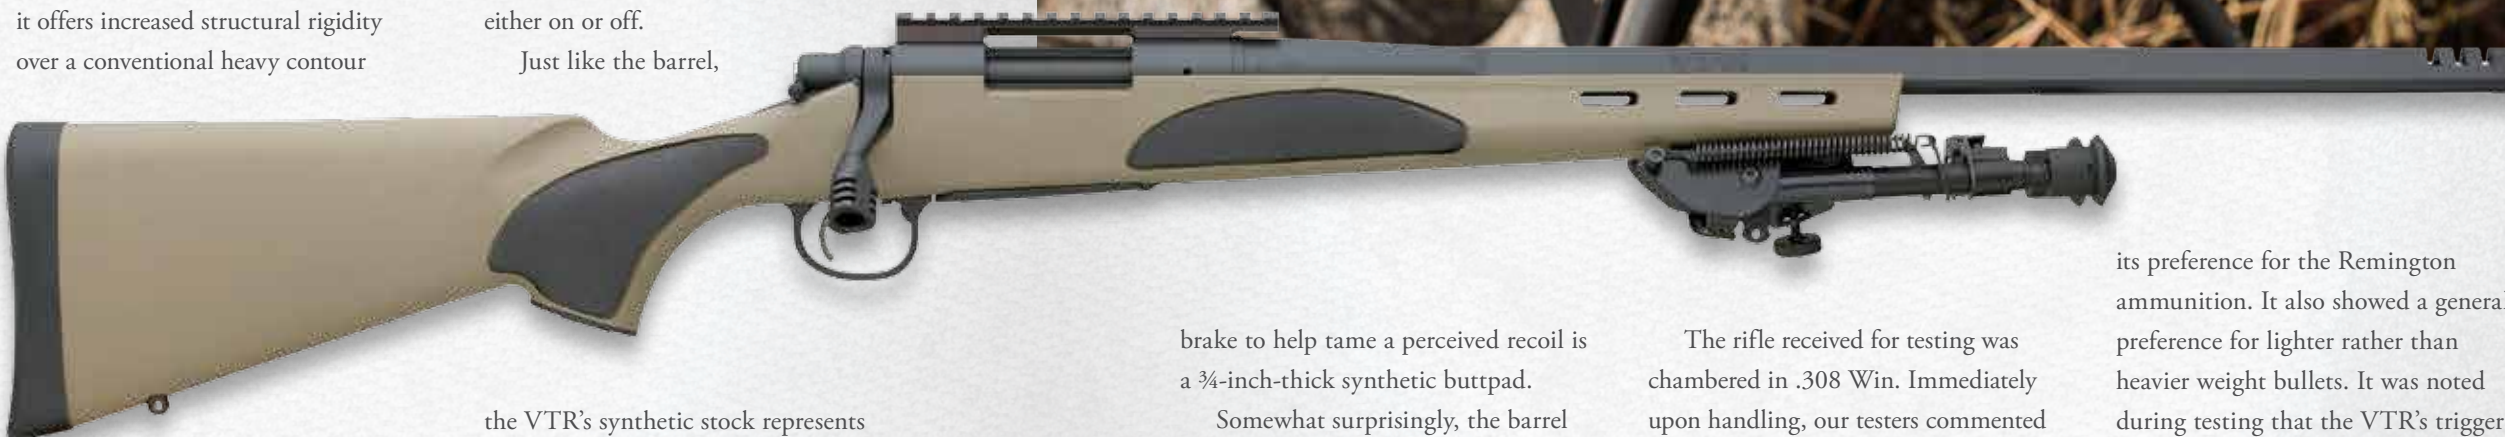

Remington, which is well-known for its popular sporting firearms, also has a somewhat lesser known tradition of developing firearms for the military, law enforcement and tactical communities. Seeing no need to reinvent the wheel, most if not all of these firearms are developed as variants of Remington's established hunting firearms, such as the Model 870 and 11-87 shotguns, the 7600-series pump-action rifle, and the Model 700-series bolt-action rifle.

In fact, the latter of these is the basis for one of Remington's newest and more unique offerings, the Model 700 VTR, which stands for varmint/tactical rifle. Officially part of Remington's sporting firearms line, the new rifle is designed around a dual-role approach that covers both varminting and tactical use. However, it eschews the usually heavyweight and lengthy barrels of such guns in exchange for a 22-inch barrel and 7½-pound total weight. Also of note is the fact that the rifle features a surprisingly low retail price of around \$800. The short-action rifle is available in four chamberings that include the popular varminting cartridges of .204 Ruger, .223 Rem. and .22-250 Rem., as well as the .308 Win., which is traditionally seen in most tactical rifles.

While the Model 700 VTR's appearance is visually distinctive from the tip of its muzzle to the base of its buttpad, the barrel is particularly unique. Taking the concept of barrel fluting to an extreme, the VTR's hammer-forged carbon-steel barrel features a triangular exterior contour that is machined from a heavy blank. The thinking behind the design is that it offers increased structural rigidity over a conventional heavy contour

plated surfaces on key components provide crisp, clean breaks, as well as significantly lighter trigger pulls set from the factory. Functionally, the X-Mark Pro externally adjustable trigger operates the same as traditional Model 700 triggers and features a safety that blocks the sear and trigger, with two positions that allow the rifle's action to be cycled with the safety either on or off.

Just like the barrel,

barrel while also offering lighter weight and increased heat dissipation.

Another unique feature of the Model 700 VTR is its integral muzzle brake. Sporting three vents perpendicular to the bore axis, the VTR's muzzle brake is counter-bored from the muzzle end and features a recessed, internal barrel crown.

The VTR features Remington's new X-Mark Pro factory-adjustable trigger. Highly polished and nickel-

the VTR's synthetic stock represents a conscious effort on Remington's part to make the rifle's appearance as distinctive as its design. Displaying an overall color of matte green, it features black overmold gripping areas on both sides of the pistol grip as well as two panels on the lower portion of the fore-end. The stock features a beavertail fore-end with three horizontal cooling vents and dual sling swivel studs for equipping the rifle with both a bipod and sling. Working in concert with the VTR's muzzle

brake to help tame a perceived recoil is a ¾-inch-thick synthetic buttpad.

Somewhat surprisingly, the barrel of the VTR is not free-floated, instead it seats on built-in pressure points located in the stock's barrel channel. Remington claims that the positioning of these contact points improves barrel harmonics and increases accuracy. The rifle has a hinged floorplate magazine system that is robust and sturdy, and its release button is located in the upper inside face of the trigger guard. The rifle is not supplied with sights, but the receiver is drilled and tapped to accept scope mounts.

The rifle received for testing was chambered in .308 Win. Immediately upon handling, our testers commented on the lightweight and handy size of the rifle, as well as the pleasant tactile qualities of the black overmolded sections on the stock. All metal parts featured an evenly applied matte-black finish. For testing, we fitted the rifle out with a Leupold Mark 2 3-9x40 mm scope mounted in Brownells steel rings.

Over the course of several boxes each of three types of ammunition, the rifle performed flawlessly. Accuracy was good, and the rifle exhibited a loyal streak through

its preference for the Remington ammunition. It also showed a general preference for lighter rather than heavier weight bullets. It was noted during testing that the VTR's trigger had an extremely clean and consistent break, with a trigger pull gauge later revealing a consistent 3 pounds pull.

For the individual who wants a bolt-action rifle that offers the uncommon combination of lightweight, compact size and good accuracy, as well as one that can serve in a variety of roles, the Remington Model 700 VTR is an excellent choice.

DOUBLE YOUR LETHAL RANGE.

The muzzleloader has been redefined, with super-magnum power and 300-yard lethal range as achieved by the revolutionary U.M.L. Ignition System and .50-caliber Premier AccuTip bullets. The Model 700 Ultimate Muzzleloader doubles your effective range with half the effort. Pre-primed cases load with the ease of centerfire cartridges, and super-hot magnum rifle primers ignite loads up to 200 grains with near smokeless efficiency. The flash channel stays clean and ready for the next load and there's no need to remove the breech plug for cleanup. This innovative new system is paired with a Model 700 receiver, a vault of strength and the most trusted in bolt action history. It's a superior rifle in every way, built to match most centerfires for precision, power and performance. The muzzleloader has been reinvented, as only America's most innovative gunmaker can.

BURNS 200-GRAIN CHARGES AND 300-YARD BUCKS

The Ultimate Muzzleloader makes in-line muzzleloaders truly primitive, with performance equal to most centerfires. Goes farther. Hits harder. With greater precision.

UNLEASH ULTRA MAGNUM LOADS

With a dependable and durable design made of primed centerfire brass, the U.M.L. Ignition System handles a 200-grain magnum charge resulting in lethal 300-yard performance.

MODEL SEVEN

HANDLES LIKE A SPORTS CAR, HITS LIKE A FREIGHT TRAIN.

The Model Seven puts game-dropping precision and power in a fast-handling platform perfect for blinds, treestands or covering ground on foot. These rifles are equipped with 20" standard contour barrels in a wide range of chamberings. All deliver the breaks-like-glass feel of our X-Mark Pro externally adjustable trigger. The **Model Seven Stainless** adds the all-weather durability of stainless steel to this quick-handling platform. With a rugged black synthetic stock to complement. The **Model Seven Synthetic** also features a rugged, black synthetic stock. The **Model Seven Laminate** combines the stunning looks of a brown laminate wood stock with fast-handling characteristics of a shorter action. Our **Model Seven CDL** is the quintessential short-action hunting rifle, sporting its classic, satin-finished walnut stock and a sleek stain-blued barreled action. And new for 2018, our **Model Seven Threaded** features a threaded muzzle. Now you can turn up the volume of your favorite pursuit with a whisper-quiet silencer.

NEW
MODEL SEVEN THREADED

MODEL SEVEN THREADED FEATURES

- Total weight is 5½ lbs
- 16½" barrel with threaded muzzle
- Light, compact rifle perfect for quick handling and smaller statured shooters
- Carbon steel barreled action

MODEL 783 CAMO

IT'S NOT DRESSED TO IMPRESS, IT'S DRESSED FOR WORK.

It's a tool. Designed by America's bolt-action experts. Assembled by American workers. And engineered with the precision, durability and performance-enhancing technology to get the job done. Period. And this year's models include a scope and rings that are ready for the range. Expect hair splitting accuracy right out of the box and dual-pillar bedding platform that free-floats the barrel. And for shot control, it's equipped with our crisp CrossFire trigger system that adjusts to suit your preferences. New for 2018, the **Model 783 HBT** sports a heavier 16.5" barrel for added accuracy, and a threaded muzzle that's suppressor ready. A Picatinny rail, oversized bolt handle, flat dark earth synthetic stock, and metalwork finished in black oxide completes its long list of tactical features. Available in 300 Blackout, 308 Winchester, 6.5 Creedmoor and 223 Remington. The **Model 783 Synthetic** comes in offerings with, or without the same premounted and bore-sighted 3-9x40mm riflescope you'll find on our **Model 783 Compact**, and all other Model 783s. Simply grab some Remington ammo, check your zero at the range, and you're ready to hunt. The **Model 783 Walnut** features a wooden stock in American black walnut with classic checkering, and a 3-9x 40 Vortex Crossfire II scope. And our **Model 783 Camo** features a synthetic stock, covered in Mossy Oak® Break-Up Country. Camo contains a high nylon fiber content, which promotes superior strength and rigidity.

MODEL 7600

MODEL 7600

SHOULD YOU NEED ANOTHER SHOT AT THAT SHOT OF A LIFETIME.

Hunts don't always unfold like you see on TV, and when the heat of the moment finds you looking for a follow-up, our famous Model 7600 can deliver with outstanding speed and accuracy, time and time again. The twin steel action bars and rotary bolt lockup of its pump action provide smooth operation, ultrapositive chambering and ejection and rock-solid strength. For accuracy rivaling that of the best bolt guns, the barrel is free floated. Hunters who rely on the Model 870 in other pursuits will love that the action, slide release and safety are based on the best-selling pump shotgun of all time. Its weight distribution and sleek design provide shotgun-like pointability. Equipped with a 22-inch barrel with iron sights, the rifle's receiver is also drilled and tapped for scope mounts.

CORE-LOKT
The world's best-selling big game ammunition, and the most proven of all time. See page 124.

MODEL 7600 FEATURES

- Action, slide release and safety based on the design of the Model 870, America's most popular pump shotgun, for instantaneous end user familiarity
- Weight distribution and slim line design result in shotgun-like balance and pointability
- 22" barrel with iron sights and receiver drilled and tapped for scope mounts allow for multiple sighting options

MODEL 597

TURBOCHARGE YOUR SHOOTING EXPERIENCE.

The fastest, smoothest, most advanced autoloading rimfire rifle, the Model 597 continues to lead the way in accuracy and reliability. And the rate it zips out rounds is rivaled only by the speed of its advancement. New for 2018, the **Model 597 Kryptek® Threaded** comes decked out in Kryptek Mandrake camo and features a 16½" threaded muzzle so you can quickly turn your rimfire into a lightning-fast hair-splitter without a hint of thunder. The **Model 597 Synthetic** adds the all-weather durability of a tough, synthetic stock and the precision of a 3-9x32mm scope to America's go-to performance rimfire. It comes bore sighted and ready for the range, or the woods, right out of the box. The **Model 597 Heavy Barrel** has a 16½" heavy-contour barrel with 5R rifling and a rugged synthetic stock. And all Model 597 magazines have been upgraded with a Teflon-type coating, which makes the rare misfeed almost completely non-existent.

MODEL 552 / MODEL 572

CLASSIC DESIGNS THAT CONTINUE TO LEAD THE WAY.

For those who still love the look and feel of a classic rimfire rifle, our **Model 572 BDL Deluxe Fieldmaster** and **Model 552 BDL Deluxe Speedmaster** may be the finest available today. Their tack-driving accuracy and quick follow-ups have made them a customer favorite. So much so, the Model 572 Fieldmaster has been an American standard since its introduction in 1955, and the Model 552 Speedmaster a mainstay since it hit the scene in 1957. They combine richly blued carbon steel barrels with generously checkered high-gloss American walnut stocks and fore-ends. Both feature big-game sights, a positive cross-bolt safety and a grooved receiver for scope mounting. The Model 572 Fieldmaster is the most popular pump-action 22 rimfire made in America today, and handles 22 Short, 22 Long and 22 Long Rifle cartridges interchangeably. Our Model 552 Speedmaster is now in it's 50th year of production, carrying forward this classic design for future shooting enthusiasts.

MODEL 552 BDL
DELUXE SPEEDMASTER

MODEL 572 BDL
DELUXE FIELDMASTER

MODEL 552 BDL DELUXE SPEEDMASTER FEATURES

- Handles 22 Short, 22 Long and 22 Long-Rifle cartridges
- High-gloss American walnut stock and fore-end with cut checkering
- Tubular magazine fed
- Richly blued carbon-steel barrel
- Adjustable iron sights for open sight plinking
- Receiver grooved for scope mounts for precision shooting with optics
- Features an autoloading action for serious plinking

REM SQUEEG-E

This revolutionary gun cleaning system quickly cleans lands and grooves in one pass. And with no patches needed, you'll save money and time. Cleans bores from .22 - 12-gauge. See page 176.

COMPLETE YOUR SHOOTING EXPERIENCE

For years of optimal performance, pair your Model 552 BDL Speedmaster or Model 572 BDL Fieldmaster with our full range of .22 Short and .22 Long Rifle cartridges. One of the most complete lineups in the industry, all our rimfire ammo is made to the highest standards of quality, delivering reliability, accuracy and consistency with every shot. See page 160.

INNOVATION BORN OF PASSION.

INNOVATION DRIVEN BY A PASSION FOR HUNTING AND SHOOTING IS AT THE HEART OF OUR SUCCESS. YOU'LL FIND THAT SPIRIT BUILT INTO EVERY PRODUCT WE MAKE.

When employees are as passionate about the hunting and shooting sports as they are about the products they build to pursue them, it shows. Like our new Model 870 DM shotgun, the world's strongest, smoothest, most reliable pump-action in an all-new detachable magazine platform. The new Model 700 PCR (Precision Chassis Rifle) combines a first-ever host of sub-MOA accuracy enhanced features in a rock-solid proprietary chassis design. And our Golden Saber Black Belt ammunition delivers unmatched penetration and terminal performance via its one-of-a-kind black Mechani-Lokt belt.

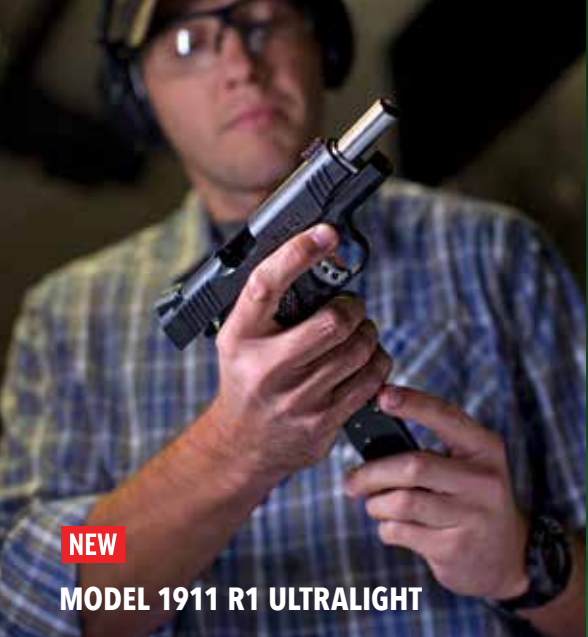

Remington has implemented new internal product review boards specifically to tap this powerful resource. Members from several key departments meet periodically throughout the year to review new product ideas submitted by Remington employees. The best of the best are then green-lighted for research and development. Their ideas, and yours become new Remington products.

We remain committed to leading the charge for higher performance in every aspect of its current product lineup – as well as new products yet to be developed. At Remington, it's not a nine-to-five occupation, but a lifelong dedication to the way of life that extends from 1816, to the next 200 years, and beyond.

150 YEARS OF HANDGUN INNOVATION

A legacy of personal protection from the mid 1800s to today.

The long history of Remington handguns dates back to the Civil War and the taming of the American West and carries through to the concealed carry movement of today. From some of the earliest percussion and cartridge revolvers, to vest pistols and derringers popular at the turn of the 20th Century, to leading modern designs, Remington has been at the forefront of handgun innovation for more than a century and a half.

the end of the Civil War, most notably the New Model Army and New Model Navy revolvers). Rider was best known for inventing the Remington rolling block system, but he was also credited with a number of parlor and vest pistols.

However, it was William Elliot, a dentist by trade, whose name is most closely associated with the popular pocket pistols and derringers of the day. Dr. Elliott received more than 50 U.S. patents for firearms from the 1850s

was a barrel and frame forged from a solid piece of steel. Remington's first large-frame cartridge revolver was the single-action, .44-caliber Model 1875 Army, made to compete with Colt's Model 1873 Single Action Army revolver.

Throughout the 20th Century, Remington's primary focus was on sporting rifles and shotguns, though a couple of notable handguns were brought to market in the 1900s. The

The long history of Remington handguns dates back to the Civil War and the taming of the American West and carries through to the concealed carry movement of today.

The company's first handgun, the 1st Model Beals' Pocket Revolver was introduced in 1856, and was quickly followed by the 2nd and 3rd Model Beals' in 1858 and 1859, respectively. Those single-action, 5-shot, .31-caliber cap-and-ball revolvers, designed for the civilian market by one of the 19th century's premier gun designers, Fordyce Beals, laid the groundwork for the Beals' Army and Navy revolvers used during the Civil War.

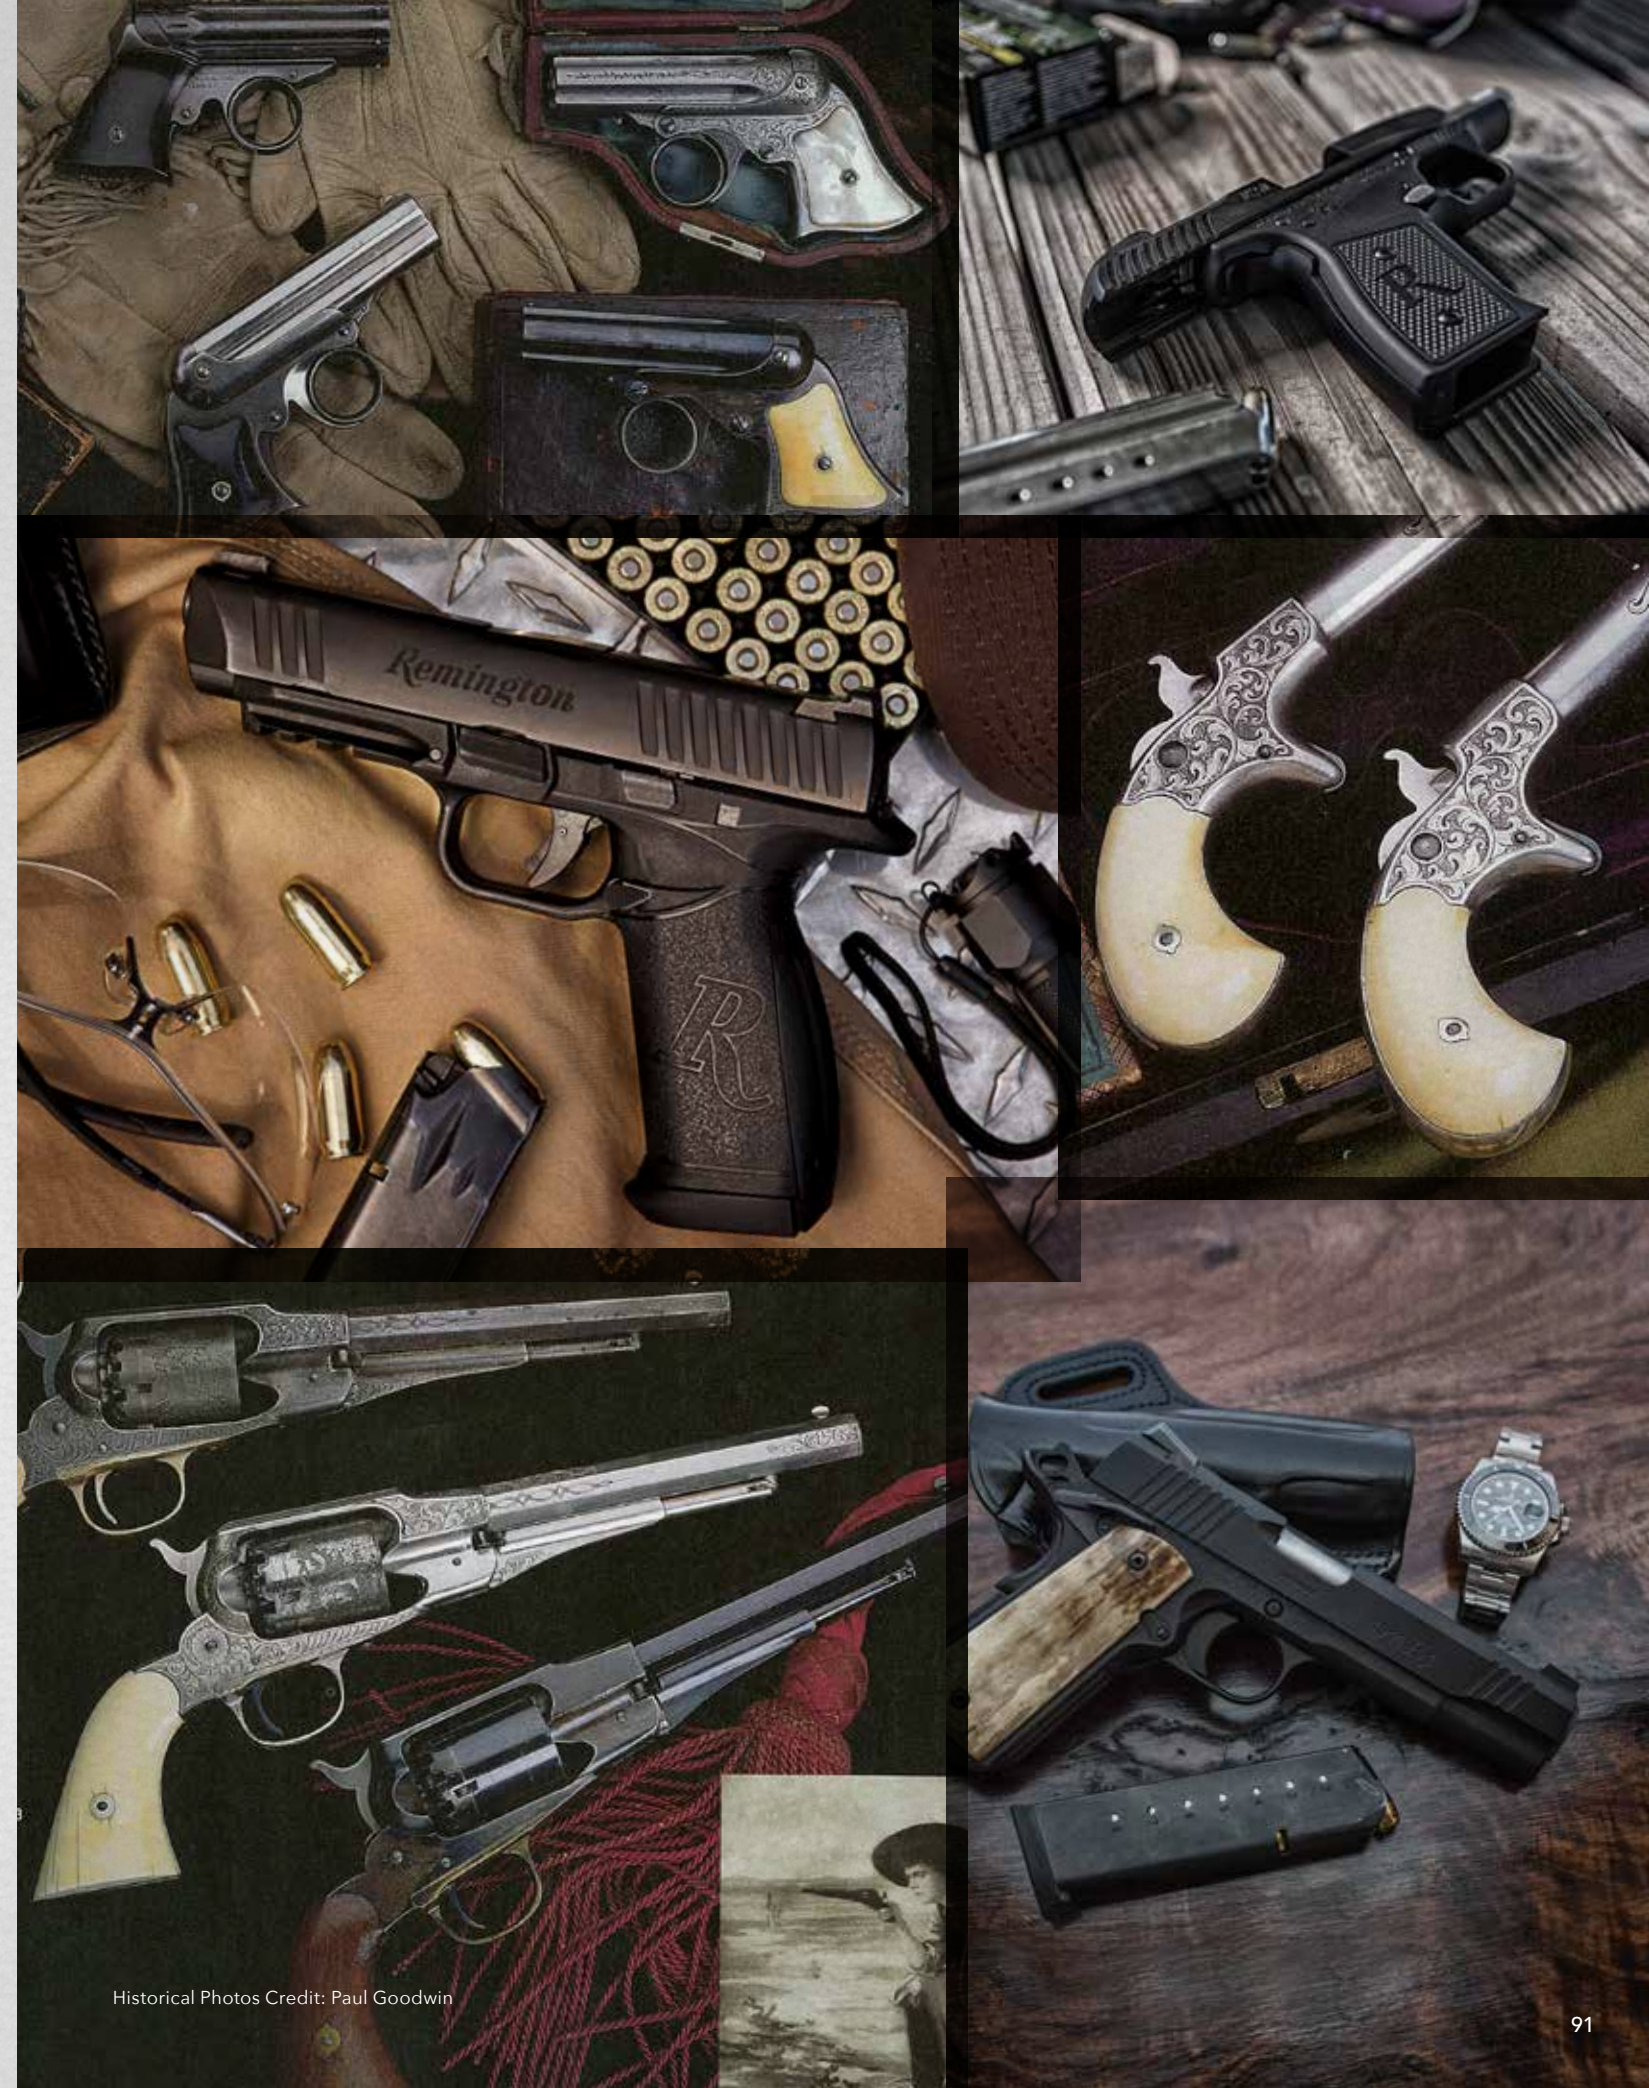

Beals was one of three prominent gun designers who contributed successful designs to the Remington handgun line-up in the latter half of the 1800s, with Joseph Rider and William Elliot being the others. Rider, too, designed a martial revolver, the Model 1861 Army (all told, Remington, delivered close to 133,500 revolvers by

to the 1880s alone. The firearms he designed helped bolster the company in the post-Civil War era, a time of great hardship for many firearms makers who had devoted their facilities to the manufacture of military arms during the War and saw that business end abruptly in early 1865.

The end of the Civil War also saw the era of the percussion-ignition firearm come to a close, with the advent of the cartridge revolver. Many of first cartridge revolvers Remington brought to market were conversions of the New Model percussion revolvers it was already making, but its first truly unique cartridge gun was the pocket-sized No. 1 New Model Revolver, designed by William S. Smoot, a former U.S. Army Ordnance Officer. Its most distinguishing characteristic

John D. Pedersen-designed Model 51 Autoloading Pistol was introduced in 1919 and became a favorite handgun of General George S. Patton. The Model XP-100 bolt-action pistol was introduced with the .221 Remington Fireball cartridge in 1963. Numerous versions of the XP-100 would follow.

Fast-forward to today and Remington has entered another renaissance of handgun design. In 2012, the company unveiled its modernized version of the iconic 1911 – the R1 – and now offers 14 different models of the pistol. And with the introduction of the RM380 micro pistol, the full-size polymer RP, and the truly revolutionary R51 subcompact, the company has once again renewed its commitment to concealed carry and personal protection.

NEW

REMINGTON RP45

**MAXIMUM CAPACITY.
COMPLETE CONTROL.
THIS IS SHOOTABILITY.**

Much more than a high, double-stack magazine capacity, the new **Remington RP9** and **RP45** embody our engineers' commitment to shootability – designed end-to-end to deliver a level of shooter control and accuracy superior to every full-sized polymer framed handgun on the market. So much so, it'd be a design marvel with a fraction of the capacity, but with 18+1 (.9mm) and 15+1 (.45 Auto) rounds at your absolute command, it equips you for the most demanding personal defense scenarios. Available this year, the **Remington RP45 with Night Sights** comes optimized with Tritium 3 Dot night sights for high visibility in low light, and a whole new level of personal protection preparedness.

REMINGTON RP FEATURES

- Smooth, light and crisp single-action trigger – consistent and smooth, with short tactile reset
- Ergonomic polymer frame fits 95% of all shooters
- Ambidextrous slide control
- “Fighting surface” on rear sight – for one-hand slide operation
- Optimized grip angle – reduces felt recoil and increases shootability
- Trigger guard undercut – allows higher hand hold for increased control
- Drift adjustable sights – easily adjusts sights to user preference
- Easy loading, double-stack magazines
- PVD finish on slide and barrel for maximum durability
- Small, medium and large replaceable backstrap

PEAK SHOOTABILITY. PEAK READINESS.

COMPLETELY REENGINEERED. Because the Remington R51 is so unlike any other handgun on the market, it posed unforeseen challenges in manufacturing when it was first introduced in 2014. Since then, our engineers have worked tirelessly to address the issues and exhaustively test the solutions, and we're proud to say the redesigned Remington R51 surpasses even our initial expectations.

With manufacturing tolerances super-tuned to its unique build, the Remington R51 not only functions flawlessly, it sets new performance standards in the subcompact category. Despite early setbacks, we never wavered in our commitment to bring the Remington R51 to market. America deserves this handgun. You deserve this handgun. And we're proud to bring it to you.

NEW

**MODEL 1911 R1
ULTRALIGHT EXECUTIVE**

LEGENDARY 1911 PERFORMANCE. LIGHTWEIGHT NEW DESIGN.

Introducing America's all-time favorite .45-caliber pistol, re-engineered with significantly less weight than ever before. Originally manufactured by Remington during World War I and re-launched in 2012, this year's breakthrough **1911 R1 Ultralight Commander** delivers the high reliability and performance you expect from a 1911, while shedding a difference-making 7.5 oz. from a standard steel frame. Chambered in .45 Auto, the Ultralight Commander weighs just 31 ounces when empty, a remarkable 30% weight-reduction. It features a match-grade 4.25-inch stainless steel barrel and a powerful 8+1 magazine capacity, an adjustable trigger system, a checkered laminate grip and PVD slide, adjustable rear sights and fiber optic front sight. For maximum 1911 performance and minimum ounces – plus the added advantage of greater visibility in low light conditions – the **Model 1911 R1 Ultralight Executive** is optimized for performance with night sights, a 3.5-inch bull barrel and G10 laminate grips.

NEW

HANDGUN HUNTING & REMINGTON

A NATURAL MATCH

By Brian McCombie

PRACTICE MAKES PERFECT.

Like bowhunters, most handgun hunters find themselves committing to practice on a regular basis to hone shooting skills and muscle memory. Practice for those longer range shots is a must, too. They also practice shooting offhand, kneeling, from a rest, even using a tree trunk for a brace; situations they may find themselves in afield.

KNOW THE REGULATIONS.

Before selecting a handgun for hunting, check with your state’s hunting regulations. In general, handguns chambered in .357 magnum and above are legal, but regs vary widely, so be sure to check first.

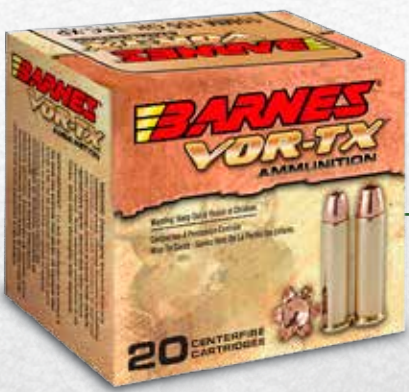

AMMUNITION MADE FOR THE HUNT.

Barnes VOR-TX Handgun ammunition is great choice. No other bullet expands as quickly the proven Barnes XPB. The nose peels back into six sharp-edged copper petals that destroy tissue, bone and vital organs for quick, humane kills.

STEADY DOES IT.

Especially with longer distance shots, even a small shake or wobble while firing your handgun can equal a major miss. For added stability, use a bi-bod, shooting stick or any other portable rest you can take with you.

The new R1 10mm Hunter Long Slide, has a section of rail below the barrel for easily attaching a bi-pod or other resting device. When hunting from a stand, you might bring along a small V-shaped sandbag for a very solid rest when mounted on the window sill of a deer stand.

The Barnes VOR-TX 10MM Auto round is the perfect hunting compliment to the new R1 10MM Hunter Long Slide.

1911 R1 LIMITED

MODEL 1911 R1 LIMITED DOUBLE STACK

HIGH CAPACITY AND PERFORMANCE DOUBLE-STACKED IN YOUR FAVOR.

The **Model 1911 R1 Limited Double Stack** has been engineered end-to-end for elevated firepower and precision. With its tough PVD DLC finish, the 5-inch match-grade stainless steel barrel, slide and frame deliver silky smooth operation, even in heavy-use scenarios. Its machined VZ G10 grips and extended beavertail grip safety guarantee sure handling, and the oversized magwell promotes lightning-fast reloads. Equipped with fiber optic front sight and fully adjustable LPA target rear sight, it's purpose-built for rapid target acquisition, and spectacular, on-target results. Test fired and personally inspected by World and National IPSC/USPSA shooting champion, Travis Tomasie, the **Model 1911 R1 Limited Tomasie Custom** comes with a signed letter from the Captain of Team Remington, and a level of quality assurance unmatched in the industry. Built to deliver higher capacity in a hard-hitting carry caliber, the **Model 1911 R1 Limited 40** offers 9 rounds of competition firepower.

MODEL 1911 R1 ENHANCED
DOUBLE STACK

BATTLE-PROVEN CONQUEROR. TURNED COMPETITION STANDOUT.

A time-proven design without equal, America's favorite pistol has been precision-machined for match-winning performance. Its engineering advancements and tight tolerances provide unrivaled shot-to-shot consistency that continues to win over a growing following of serious

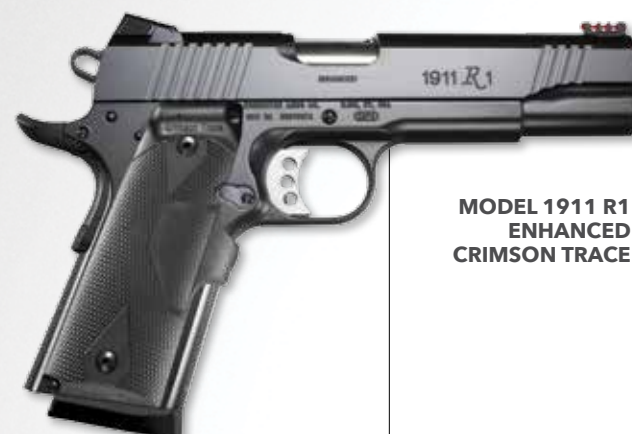

competitors. The **Model 1911 R1 Enhanced** is a clear competitive standout. Its long list of accuracy-enhancing features includes adjustable rear sight with red fiber-optic front sight and trigger. Front and rear slide serrations, flat-checked mainspring housing and custom grips promote sure handling. Optimized to provide maximum firepower, the **Model 1911 R1 Enhanced Double Stack** gives shooters a double-stack capacity advantage, plus ultimate precision and control for personal protection. The **Model 1911 R1 Enhanced Stainless** delivers the same advanced performance features with the durability and stately looks of a stainless steel finish. Our **Model 1911 R1 Enhanced 9mm** offers all of the Model 1911 R1 Enhanced features, chambered in popular 9mm. Two 9-round magazines with bumper pads are included. Also new to the family, **Model 1911 R1 Enhanced Crimson Trace**, with built in accuracy-enhancing laser sight delivers target acquisition at the speed of light. And the **Model 1911 R1 Enhanced Threaded Barrel** ups the ante of the R1 Enhanced's features with an extended barrel and tall, two-dot rear sight for use with a suppressor.

+ + + +

LAYING THE GROUNDWORK FOR A NEW ERA OF PRECISION.

Fortifying our commitment to building the highest quality firearms and ammunition products in the world, we've invested in new technology upgrades at every Remington facility, and built the most advanced R&D and manufacturing center on the planet. At locations all across the U.S., we've implemented unprecedented aerospace tolerances for precision, instituted extensive new testing protocols, and introduced the most streamlined and efficient, industry-leading R&D and machining processes to completely transform our production capability.

From our historic, freedom-defending factory in Ilion, NY to our ultra-efficient Lonoke, AR ammunition hub, to the epicenter of custom firearm craftsmanship in Sturgis, SD — fully forward to the Rocket City, home of aerospace engineering precision and our new Huntsville, AL facility — we're building the legacy of our next 200 years, one 10,000th of an inch at a time.

And we have implemented new, more stringent quality control measures for every product at every Remington facility. For example, at the end of each daily ammunition run, every station on the line is inspected and cleared of all remaining sub components – and only replenished with new, fresh components before the next day's production can begin.

+

HUNTSVILLE

This is the Rocket City. Aerospace engineering capital of the world. This is where space-age technology meets 1816 work ethic – and Ground Zero for a revolution in American craftsmanship. With over half a million square feet devoted to delivering the highest quality of precision-manufactured firearms, the aerospace-powered potential is sky high and the future possibilities for America's hunters and shooters are unlimited.

+

ILION

Perhaps no factory in history has been more important to the preservation of American freedom than our Ilion facility. Originally opened in 1828, it has played a crucial role supplying US wartime efforts with firearms and ammunition to sustain countless conflicts abroad. Today, you can tour The Remington museum located on-site, or witness new chapters being written every day on its state-of-the-art production line.

+

LONOKE

Spanning 1,200 acres with 46 separate structures on its campus outside of Little Rock, our new Lonoke facility features more than 750,000 square feet dedicated to the production of Remington Ammunition. The model of modern manufacturing efficiency, it utilizes 44 million pounds of lead and 12 million pounds of copper to churn out a massive 2.6 billion rounds of ammunition a year, supplying America's hunter and shooters with all the high quality, high-performance firepower they need.

+

STURGIS

Home of Remington's newly relocated Custom Shop and many of the world's most renowned and talented gunsmiths, the Sturgis facility designs and builds premium custom firearms that are among the very best in the world. Dedicated to turning custom-crafted dreams into high-performance works of art, our Sturgis facility combines old-world gunsmithing traditions, with the latest in modern technology.

HIGH TERMINAL PERFORMANCE MEASURED ONE SHOT AT A TIME.

NEW

HTP COPPER. Engineered for maximum terminal performance in the field, HTP Copper is built to the highest industry standards with premium components to provide hunters, with the fullest measure of copper-powered confidence. Its Barnes TSX bullet is precision engineered with four cutting petals that deliver massive expansion, deep penetration and near 100% weight retention, every time. It's tremendous terminal performance and integrity only a one-piece bullet can provide.

MODEL 700 AWR

The most accurate production rifle in history, built to endure anything. See page 56.

MEET THREATENING SITUATIONS WITH TOTAL PREPAREDNESS.

HTP PISTOL/REVOLVER. When sheer instant stopping power makes all the difference, Remington High Terminal Performance delivers in a powerful way. Manufactured with premium primers, brass cases and propellants, HTP packs ample punch to drop big game or end threats when it matters most. Available in all major defense calibers, in standard and many +P loadings. For the hunt or personal defense, you've got a job to do. We've got the load to get it done.

MODEL 1911 R1 TACTICAL

For competition or personal defense, a winning combination of reliability and enhanced tactical features. See page 112.

ALL COPPER. PURE DEVASTATION.

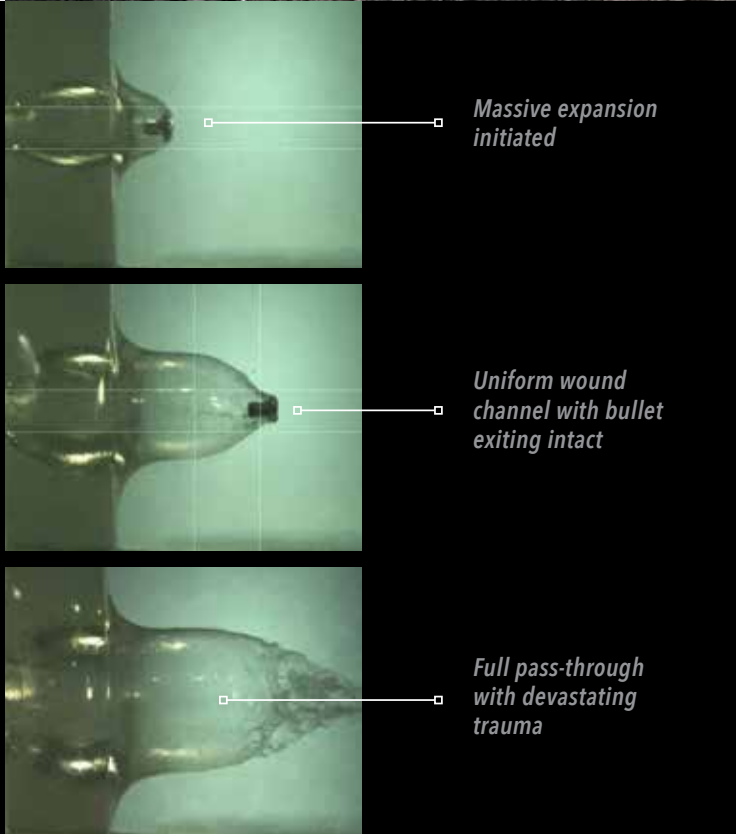

- 1 HOLLOW POINT CAVITY
For reliable and predictable expansion
- 2 SLEEK BULLET PROFILE
For laser-flat trajectory
- 3 ACCU-GROOVE™
For decreased fouling and improved accuracy
- 4 PRECISION HEEL RADIUS
For extreme accuracy

Four "cutting petals" expand to double the bullet's original diameter for long, wide wound channels.

THE CUTTING EDGE OF MASSIVE WOUND CHANNELS.

It's the most devastatingly powerful performance in big game hunting. Constructed with an all-copper Barnes TSX Bullet, HTP Copper generates deeper penetration than standard lead-core bullets while delivering rapid, 2X+ expansion – on even the thickest-skinned animals. Hands down, the toughest and deadliest expansion bullet in the industry.

CORE-LOKT

THE WORLD'S
BEST-SELLING
CENTERFIRE
HUNTING
AMMUNITION.

Since 1939, more hunters have relied on Remington Core-Lokt than any other big-game ammunition, and rightfully so. It's filled more tags on more continents than any other load. Core-Lokt is the original controlled-expansion bullet. Its time-proven performance has made it hunting's first choice for over 78 years. The tapered copper jacket is locked to a solid lead core delivering massive 2x expansion, high weight retention and consistent on-game results. It's available in soft point and pointed soft point versions, and in a range of bullet weights for virtually every centerfire hunting caliber made. Trust your next hunt to the best-selling centerfire hunting ammunition of all time.

CORE-LOKT

WE'VE PUSHED ITS TECHNOLOGY THROUGH MILLIONS OF DEER.

Amid the comings and goings of countless imitators and emulators, Remington Core-Lokt has remained the best-selling centerfire hunting ammunition the world has ever seen for nearly eight decades.

The most trusted among generations of American big game hunters. The most common thread, and end, to more hunting stories throughout the modern sporting era. It's the product of constant innovations and improvements to materials and manufacturing processes.

For 79 years, the original controlled-expansion bullet, and deadliest mushroom in the woods, has only grown stronger. And it's not about to let up.

MODEL 783

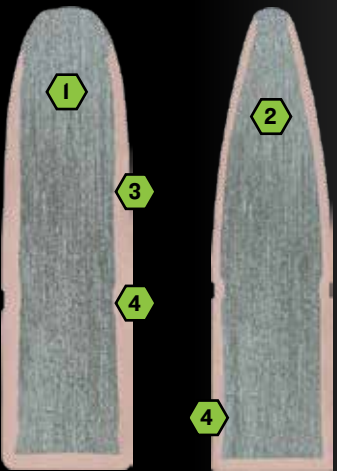

This no-frills bolt-action workhorse is all hunt. Its host of best-in-class features deliver tack-driving precision and unequalled performance. See page 70.

THE DEADLIEST MUSHROOM IN THE WOODS.

- 1 CONSISTENT 2X EXPANSION**
For large terminal wound channels
- 2 DEEP PENETRATION**
And high weight retention
- 3 PROVEN LETHAL**
The original controlled-expansion bullet

- 1 SOFT POINT SHAPE**
Provides broad frontal area for high-energy impact and rapid expansion
- 2 SPITZER SHAPE PROFILE**
For improved velocity and flatter trajectory
- 3 BULLET CORES "LOKT" IN PLACE**
To provide deep penetration
- 4 JACKETS DESIGNED FOR PROGRESSIVE, RELIABLE EXPANSION**
To almost twice the original diameter

CORE-LOKT SOFT POINT CORE-LOKT POINTED SOFT POINT

TESTED. PROVEN FOR TERMINAL DEVASTATION.

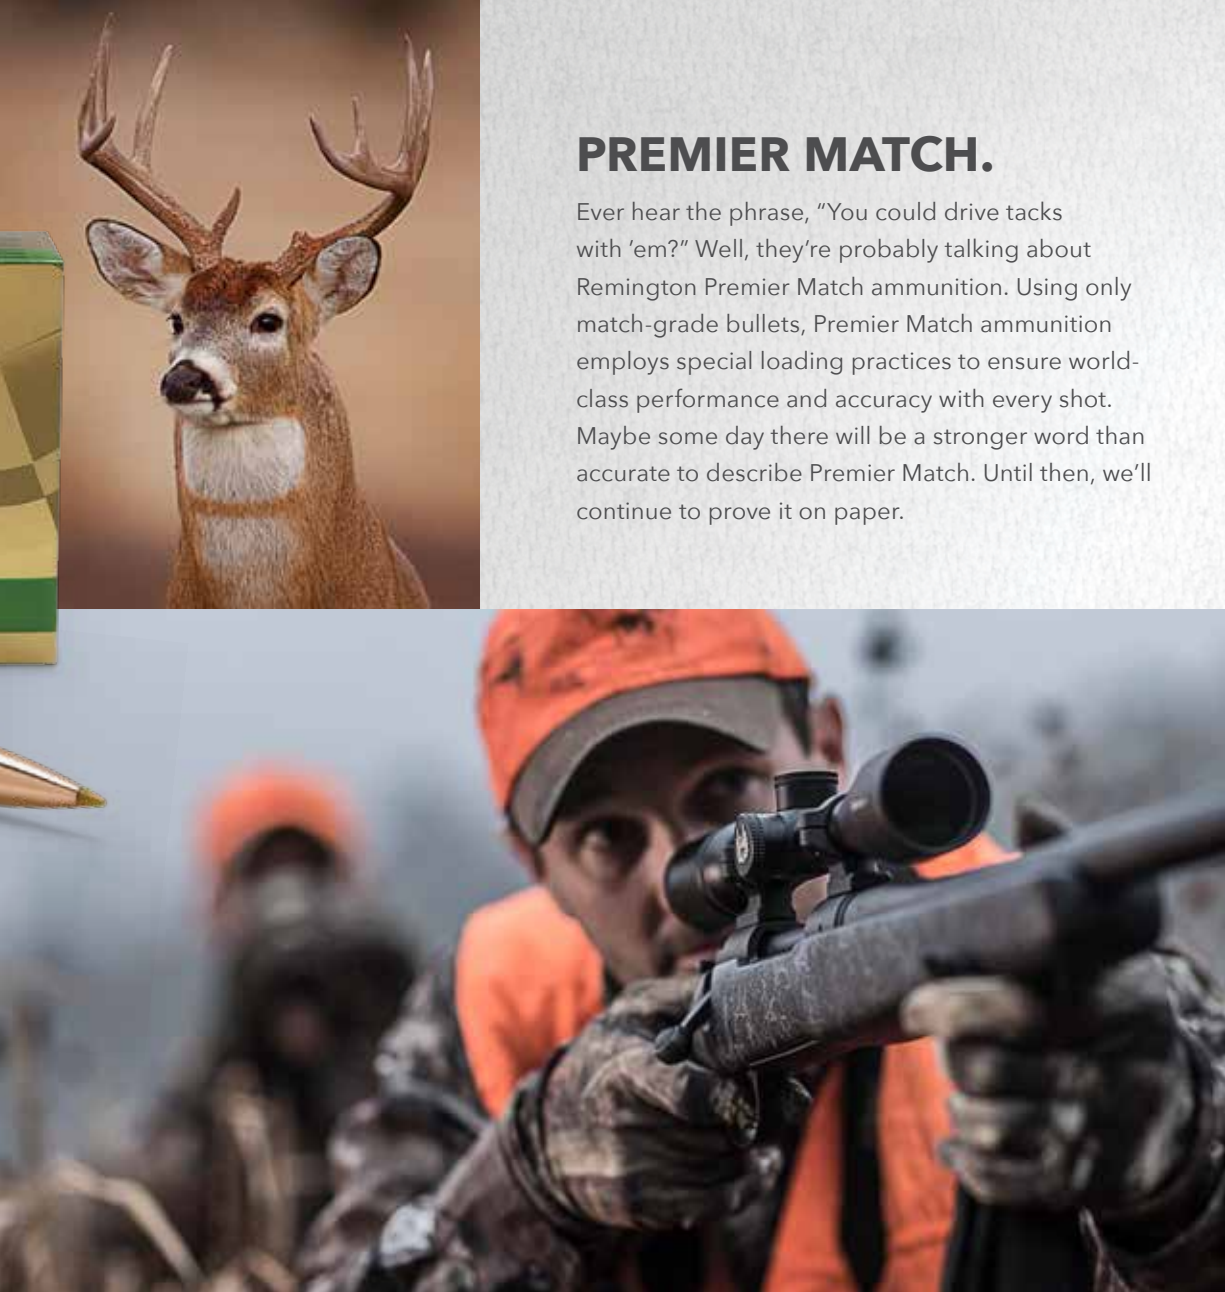

Creating explosive cavities in ballistic gelatin, Remington engineers have devised the ultimate performer for devastating wound channels.

PREMIER FAMILY

PRECISELY THE HUNTING BULLET OF YOUR DREAMS.

It's the perfect advancement of match-grade accuracy and deer-stopping terminal results. Optimized to deliver superior match-grade accuracy and maximum downrange energy whenever, and wherever you need it, every time. AccuTip bullets expand quickly – producing an awesome level of transferred energy – to dispatch game with lightning authority. And specially engineered for varmint hunting, AccuTip-V bullets are optimized for match-grade accuracy and explosive on-game results. At impact, its gold polymer tip is driven rearward causing the thin jacket and soft lead core to fragment violently.

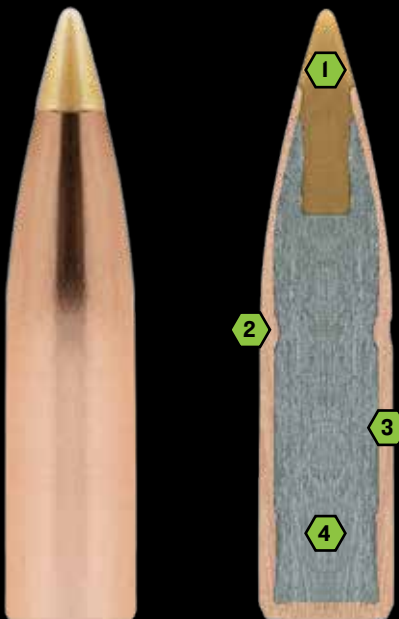

PREMIER MATCH.

Ever hear the phrase, “You could drive tacks with ‘em?” Well, they’re probably talking about Remington Premier Match ammunition. Using only match-grade bullets, Premier Match ammunition employs special loading practices to ensure world-class performance and accuracy with every shot. Maybe some day there will be a stronger word than accurate to describe Premier Match. Until then, we’ll continue to prove it on paper.

ONE SERIOUSLY LETHAL HUNTING TIP.

- 1 POLYMER TIP**
Eliminates nose deformation, improves long range ballistics, initiates rapid expansion
- 2 SLEEK PROFILE**
Optimizes ballistic coefficient for flat trajectory
- 3 JACKET THICKNESS**
Tuned for violent terminal performance on medium-sized game
- 4 MATCH GRADE ACCURACY**
Center of gravity adjusted rearward to maximize accuracy

MATCH-GRADE ACCURACY. ELEVATED.

MODERN SPORTING RIFLE

UMC 223 REMINGTON

One of the most popular rounds among American shooters today, .223 Remington rifle cartridges offer fast velocity with relatively low recoil. Perfect for recreational shooting, varmint and small predator hunting, they pair with our lightweight R-15 platform to create the ultimate synergy of our firearms and ammo expertise. Available in Premier Match, High Performance Rifle and UMC loads.

300 AAC BLACKOUT

The ultimate 30-cal solution for the MSR platform. It matches the ballistic power of the 7.62x39mm AK, but at 300 meters has 16.7% more energy. Optimal for sound and flash-suppressed fire, all in a low-recoiling package. Featuring waterproofed primers, crimped and cannellured open-tip match bullets, and a low-drag design.

30 REMINGTON AR

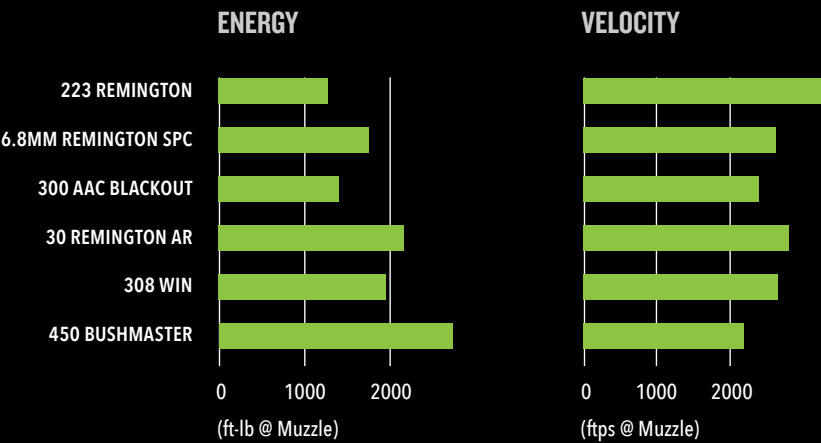

With big game dropping ballistics like the vaunted 308 Win. This blend of devastating power and speed is a major advancement in big-game hunting technology. Available in Core-Lokt.

PREMIER ACCUTIP 450 BUSHMASTER

The “Big Thumper” gets a big dose of aerodynamics and devastating expansion from your 450 Bushmaster and we load it with perhaps the most accurate 45-caliber bullet ever devised. Featuring our Power Port tip, this 260-grain AccuTip projectile delivers exceptional flight characteristics for ultimate downrange precision and sustained energy. Its high-strength cartridge-brass jacket and spiral nose cuts' combine to drive huge, uniform mushrooms through the toughest game with ease.

THE MODERN HUNTING RIFLE HAS EVOLVED. USE THE AMMUNITION TO MATCH.

HIGH PERFORMANCE RIFLE

LOADS FOR EVERY PURSUIT CRAFTED TO ONE SUPERIOR STANDARD.

As America's oldest rifle maker, Remington also has a proud heritage of innovating rifle ammunition. Assembled with premium components honed to ultra-tight tolerances, our High Performance Rifle Series more than lives up to its name. And it's available in a wide range of calibers, bullet weights and styles. In the field, forest or at the range, there's a Remington High Performance Rifle round tailor-made to match any pursuit.

A BULLET FOR EVERY PASSION.

HOLLOW POINT POINTED SOFT POINT OPEN TIP MATCH SOFT POINT

INNOVATIVE REMINGTON LOADS

THIRTY-SEVEN DIFFERENT RIMFIRE AND CENTERFIRE RIFLE CARTRIDGES CARRY THE REMINGTON NAME. THEIR BACKSTORIES ARE AS DIVERSE AS THE APPLICATIONS FOR WHICH THEY WERE DEVELOPED.

FAMILY TIES

THE .260 AND 7MM-08 ARE DERIVED FROM THE .308. THE .25-06 AND .280 ARE BASED ON THE .30-06.

WILDCATS MANY ICONIC REMINGTON CARTRIDGES BEGAN AS WILDCATS, INCLUDING:
.22-250 REM. • .25-06 REM. • .260 REM. • 7MM-08 REM.

ELMER KEITH

THE .44 REM. MAG. WAS DEVELOPED BY THE LEGENDARY GUN WRITER.

ULTRA MAG

ALL REMINGTON ULTRA MAGNUM CARTRIDGES ARE BASED ON THE .404 JEFFERY.

PERFECT PAIR

THE 7MM REM. MAG. WAS INTRODUCED IN 1962 ALONGSIDE THE MODEL 700 BOLT-ACTION RIFLE.

VERSATILE

.223 REM. AMMO CAN BE SHOT FROM RIFLES CHAMBERED FOR 5.56 NATO, BUT NOT VICE VERSA.

SOCOM

THE 6.8MM SPC WAS DEVELOPED WITH U.S. SPECIAL OPS FORCES AS A MORE LETHAL ALTERNATIVE TO THE 5.56 NATO.

DANGEROUS GAME

THE .416 REM. MAG. WAS DEVELOPED AS A LESS EXPENSIVE ALTERNATIVE TO THE .416 RIGBY.

HOT & FLAT

THE .22-250'S BLAZING SPEED MAKES IT POPULAR WITH OPEN-COUNTRY PREDATOR HUNTERS.

MUZZLELOADER

BOLT-ACTION CENTERFIRE SIMPLICITY.

Engineered exclusively for the Ultimate Muzzleloader, pre-primed cases load with the ease of any centerfire. And super-hot magnum primers ignite up to 200-grain loads with near smokeless efficiency. The flash channel stays clean and ready for the next load and there's no need to remove the breech plug for cleanup.

OUR BEST TIP FOR MUZZLELOADER ACCURACY.

Take muzzleloader accuracy to the next level with 100% copper, Premier AccuTip bullets by Barnes. Riding in an EZ load sabot, the polymer tipped, 50 caliber, 250-grain bullet delivers rapid expansion with 100% weight retention. Designed for use in any 50-caliber muzzleloader.

MODEL 700 ULTIMATE MUZZLELOADER
Legendary Model 700 bolt-action reliability coupled with our innovative U.M.L. Ignition System delivers 300-yard lethal range and precision rivaling most centerfires. See page 66.

YOUR MUZZLELOADER'S ULTIMATE PERFORMANCE ADVANTAGE.

UNLEASH ULTRA MAGNUM LOADS

With a dependable and durable design made of primed centerfire brass, The U.M.L. Ignition System handles 200-grain magnum charge – resulting in lethal 300-yard performance. For maximum burn and efficiency, use up to four (4) Hodgdon Triple Se7en 50/50 pellets to safely achieve 2,400 fps (muzzle) in the Remington Ultimate Muzzleloader.

DO NOT LOAD YOUR MUZZLELOADER IN A WAY THAT IS NOT PRESCRIBED BY ITS OWNER'S MANUAL.

SLUGS

NEW

PREMIER EXPANDER SABOT SLUGS

ULTIMATE TROPHY-TAKING TECHNOLOGY POWERED BY BARNES. Delivering 2¾" or 3" magnum-caliber terminal performance in 12- and 20-gauge, tack-driving precision and devastating Barnes copper petal expansion, new Remington Expander is hands down, the hardest-hitting, most deadly-accurate slug ever to hit the whitetail woods.

MODEL 870 EXPRESS DEER

One of the most accurate slug guns on the market today, and one of the best values you'll find. See page 40.

PREMIER ACCUTIP SABOT SLUGS

PUNCHES HUGE HOLES WITH PINPOINT ACCURACY. The AccuTip doesn't just look intimidating, it's flattening whitetails and competitors in the tipped-slug market with devastating ferocity. Guided by our Power Port Tip, these sabot slugs hit with a degree of accuracy and terminal performance unmatched by any other we've tested. It is a true masterpiece of aerodynamics that consistently transfers tremendous knockdown force to the farthest reaches of shotgun range. At 58-cal, our 12-gauge version is the largest tipped slug you'll find anywhere. In field testing, both the 12-and 20-gauge versions produced huge wound channels and crumpled every deer they touched with a single shot. Spiral nose cuts and high-strength cartridge-brass jacket come together on game to create large, perfect mushrooms with over 95 percent weight retention from 5 to 200 yards. Available in 2¾" or 3" 12-gauge and 20-gauge versions.

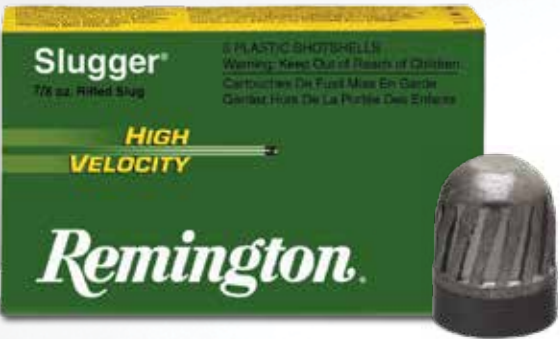

FEATURES	12 GAUGE	20 GAUGE
Power Port Tip delivers dramatically superior ACCURACY	Yes	Yes
Spiral nose cuts CONTROL EXPANSION at all ranges	5-200 yards	5-150 yards
High WEIGHT RETENTION at all distances	98% @ 100 yards	98% @ 100 yards
Slug jacket made from HIGH-STRENGTH cartridge brass	Yes	Yes
Designed for use in FULLY RIFLED barrels only	Yes	Yes

MORE ACCURATE. MORE LETHAL. AND IT'S ALL ABOUT THE TIP.

- 1 POWER PORT TIP For accuracy assurance
- 2 SPIRAL NOSE Cuts for controlled expansion
- 3 SOLID LEAD CORE For high weight retention
- 4 BRASS JACKET For high strength

SLUGS

SLUGGER HIGH VELOCITY RIFLED SLUGS

This higher velocity slug exits the barrel at 1800 fps, 13 percent faster than standard 1-oz. slugs. The 7/8-oz. Slugger High Velocity delivers more energy at 50 yards with flatter trajectory on deer than standard 1 oz. slugs. Produced in most popular slug loadings – 2¾" and 3" 12 gauge and 2¾" 20 gauge. Designed for the avid deer hunter using smooth bore guns.

SLUGGER RIFLED SLUGS

Our most popular, accurate, hard-hitting slug. Slightly oversized for great smooth-bore shotgun performance, resulting in better sealing against the barrel wall for greater accuracy.

MANAGED-RECOIL SLUGGER RIFLED SLUGS

Devastating performance, but with 45% less felt recoil than full velocity Sluggers. Less recoil makes sighting-in more comfortable, while the accuracy and speed of second shots is greatly improved. And with effective energy out to 80 yards, it handles the majority of shotgun deer hunting ranges.

DELIVER YOUR SLUGS WITH EXPERT PRECISION.

Pair our advanced slug loads with any of our quality selection of rifled barrels and specialized slug shotguns. See page 186.

BUCKSHOT

EXPRESS MAGNUM
AND EXPRESS BUCKSHOT

One of the great values in shotgun deer loads. A combination of heavy cushioning behind the shot column and a granulated polymer buffering helps maintain pellet roundness for tight, even patterns.

LEAVES "00" DOUBT ABOUT KNOCKDOWN POWER.

BUCKSHOT
VALUE PACKS

Available in a 25-round box or 100-round sleeve (4 individual boxes), it's simply the best value in buckshot for home defense, tactical shooting or predator hunting. High value pack is loaded with Remington Express 00 Buckshot, chosen time and again for its tight, consistent patterns. For more confidence per box, choose Remington.

MODEL 870 EXPRESS
HARDWOOD HOME DEFENSE

With a receiver machined from a block of solid steel, and unstoppable reliability trusted by hunters, shooters and law enforcement professionals for 60 years, there's no better choice for home defense. See page 27.

NITRO-STEEL

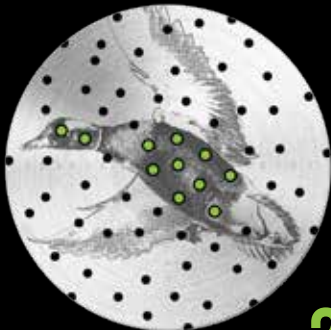

MORE STEEL TO THE BIRDS. MORE BIRDS TO THE GROUND.

The steel serious waterfowlers depend on has been driven to new heights of performance. Remington NITRO-STEEL. Now with additional hard-hitting, higher velocity offerings. Premium, zinc-plated, 100% round pellets fly straight, delivering true close to long-range pattern performance. And NITRO-STEEL is fully compatible with aftermarket ported and wad-stripping chokes. It's a proprietary blend of components that produces more dead birds than any other load, year after year.

Premium, zinc-plated steel pellets, engineered for higher velocity, greater uniformity, straighter flight and tighter patterns.

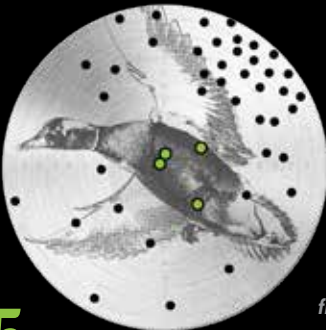

FULL PAYLOADS. FULL PATTERNS. FULL LIMITS.

WATERFOWL

HYPERSONIC STEEL

Most ducks are missed from behind, but the unprecedented velocity of Remington HyperSonic Steel compensates for this by reducing required lead by 8" at 40 yards (about a full body length) on a duck flying at average speed. It puts more pellets in the head and neck for quicker kills and fewer misses – without changing the way you shoot. With unprecedented velocity and the highest downrange pattern energies ever achieved, HyperSonic Steel takes lethality to new heights, to a level of terminal performance where more birds drop with fewer shots at the farthest reaches of your abilities. And only Remington harnessed the wad technology to do it.

THE WORLD'S FASTEST HARDEST-HITTING STEEL.

- **HIGH VELOCITY STEEL**
(1450 fps, 1¼ oz.) @ 40 yds
- **HYPERSONIC STEEL**
(1700 fps, 1¼ oz.) @ 40 yds

AT 1,700 FPS,
HYPERSONIC STEEL GIVES YOU AN 8" LEAD ADVANTAGE AT 40 YARDS.

*QUICKER KILLS. FEWER MISSES.
11% SHORTER LEADS.
MORE HEAD & NECK HITS.*

PATENTED XELERATOR WAD TECHNOLOGY

Our proprietary wad technology is the key to HyperSonic Steel's unprecedented velocity.

- 1 NEW HOTTER PRIMER**
Ignites small powder charge in chamber, moving entire payload forward slightly to control pressure.
- 2 IGNITION CHAMBER**
Produces higher velocities with safe pressures and full payloads.
- 3 XELERATOR WAD STRESS CONCENTRATOR**
Initiates petal splitting, which holds patterns tighter downrange.
- 4 PRIMARY POWDER CHARGE**
Ignites, accelerating the payload to speeds up to 1700 FPS.

SPORTSMAN HI-SPEED STEEL LOADS

HIGH VELOCITY, HIGH VALUE.

- Economical, Hi-Speed steel loads
- Waterfowl loads for every hunting situation
- Upland loads for use in lead-free zones and for pre-season practice
- Shot size selection to match your game

AMERICAN CLAY & FIELD

THE CUTTING EDGE OF BIRD & CLAY-CRUSHING CONSISTENCY.

Nothing that flies stands a chance against these dual-purpose rounds. Featuring a premium STS primer, reloadable hull, our patented Power Piston wad and high-hardness lead shot, they deliver flawless performance and consistent patterning, whether your target is winged or clay.

URNS CLAY INTO DUST AND BIRDS INTO DINNER.

- 1 HIGH-HARDNESS LEAD SHOT**
For consistent, tight patterns at all ranges
- 2 PATENTED POWER PISTON WAD**
Cushion the shot charge for less deformation and more consistent velocities even in overbore barrels
- 3 PREMIUM STS PRIMER**
Suitable for use in all shotguns, including high grade fixed breach firearms
- 4 RELOADABLE UNIBODY HULL**
Premium brass-plated steel caps and high strength plastic hulls for superior functional quality and reloadability

MODEL 1100 COMPETITION

It's the soft-shooting competitive edge trusted by millions of serious competitors to win more championships than any other autoloader. See page 23.

TARGET / COMPETITION

REMINGTON PREMIER. THE MOST DOMINANT FAMILY OF COMPETITORS IN SHOTGUN SPORTS HISTORY.

PREMIER NITRO SPORTING CLAYS

Smoke targets and all competitors with the finest sporting clays load in the world today. The Premier Nitro performance that has dominated trap and skeet competitions for years is now available in high-velocity, 1-oz. and 1 1/8-oz. loads specially formulated for the sporting clays enthusiast.

PREMIER NITRO 27 HANDICAP TRAP LOADS

Designed for long-yardage trapshooting and long-range sporting clays, our custom powder blend, Power Piston wad and Premier STS primer mix have improved the Nitro 27 performance allowing more consistent velocities, 15 percent better pattern performance and softer recoil.

PREMIER STS TARGET

The standard in target shooting reliability. Absolutely consistent from shot to shot. Bar none, the most reliable, most reloadable shells you can shoot. Available in 12-, 20- and 28-gauge and 410 bore.

GUN CLUB TARGET LOADS

An excellent choice for economical shooting, these high-quality shells are loaded with the same care as our top-of-the-line STS loads and feature a Power Piston wad. Many shooters are discovering that they can get acceptable reloading life while stretching their shooting dollar.

MODEL 1100 CLASSIC TRAP

It's sweet-shooting reliability with all of the time-tested features of the Model 1100 field guns, but optimized to handle 2 3/4" target and light field loads. Top choice for serious competitors. See page 23.

UPLAND

MORE BIRDS TO THE BOX.

NITRO PHEASANT LOADS

For pattern, energy and performance, nobody beats Nitro Pheasant. It uses the Remington Copper-Lokt copper-plated lead shot with high antimony content – the hardest lead we make for hunting. Hard shot stays rounder for truer flight, tighter patterns and greater penetration. So when it comes to bringing down tough birds like pheasant, you need a load that delivers maximum pattern density and lethal energy – you need Nitro Pheasant. Available in both high velocity and magnum loadings in both 12-and 20-gauge.

PHEASANT LOADS

For the broadest selection in game-specific upland lead shotshells, Remington Pheasant Loads are the perfect choice. Their high velocity and long-range performance are just right for any pheasant hunting situation. Standard high-base payloads include 12-, 16-, and 20-gauge.

EXPRESS XLR EXTRA LONG RANGE LOADS

Simply, the best-balanced, tightest-patterning upland field loads available. With a bold new look, and the same premium performance decades of shooters have come to know and trust. The time-proven excellence of Express XLR Extra Long Range line with five loadings – 12-gauge to 410 bore – and shot sizes ranging from #2 all the way down to #7½, for everything from pheasant and quail to rabbits and squirrels.

NITRO MAG BUFFERED MAGNUM LOADS

Excellent for dropping birds. Heavy payloads of magnum-grade shot are packed with polymer buffering and enclosed in our Power Piston one-piece wad to provide dense, even patterns and uniform shot strings.

LEAD GAME LOADS

Budget-stretching shotshells for a wide variety of hunting. Available in 12, 16, 20 gauge and 410 bore loadings.

HEAVY DOVE LOADS

The hunter's choice for doves and a wide variety of game-bird applications, available in 12 gauge with shot sizes of 7½ and 8.

TURKEY

PREMIER MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS

Our original magnum turkey loads. The finest lead shotshell you can carry in the woods. Magnum-grade Copper-Lokt shot is cushioned with special polymer buffering and further protected by our Power Piston one-piece wad for dense, even patterns. Delivers superb performance and knockdown power out of tightly constricted turkey chokes.

PREMIER HIGH VELOCITY MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS

The high-performance lead load for avid turkey hunters. 3" and 3½" 12-gauge payload leaves the muzzle at 1300 fps. Delivers hard-hitting knockdown power. Loaded with our Power Piston one-piece wad and magnum-grade Copper-Lokt lead shot for dense patterns and deep penetration.

LONG-RANGE PERFORMANCE HEAD AND NECK ABOVE THE REST.

NITRO TURKEY

NITRO TURKEY EXTENDED RANGE BUFFERED MAGNUMS

- Nitro Mag extra-hard lead shot
- Patterns over 80% with super full choke
- Patterns like copper-plated shot
- Value priced

VERSA MAX SPORTSMAN TURKEY

Deliver long-range 3" or 3½" magnum payloads with precision via our VersaPort gas operating system and 22" barrel with TFX choke. Mossy Oak® Obsession concealment completes this turkey hunter's dream set up. See page 14.

GOLDEN SABER BLACK BELT

NEW

A BREAKTHROUGH IN THREAT-STOPPING PERFORMANCE.

Introducing Golden Saber Black Belt - engineered in conjunction with law enforcement professionals, for law-enforcement professionals, and now available to anyone seeking the pinnacle of stopping power. Extensively proven in FBI barrier testing to deliver massive, reliable expansion and deep penetration in every medium. All thanks to the bullet's proprietary black Mechani-Lokt belt that firmly locks the jacket to the core for unfailing integrity in the most extreme personal defense scenarios. It's available in 9mm, 40 S&W and 45 Auto, and always ready to defend when called upon.

CORROSION
RESISTANT
nickel-plated
case for
reliable feed
and function

FLASH
SUPPRESSED
propellant
for minimal
muzzle flash

PRIMER
OPTIMIZED
for consistent
ignition and reduced
muzzle flash

WATERPROOF
SEAL
at the neck
and primer
pocket for added
reliability

Hollow point bullet
demonstrates controlled
expansion with maximum
weight retention for massive
knock-down power.

A PERSONAL DEFENSE LOAD OF THE HIGHEST RANK.

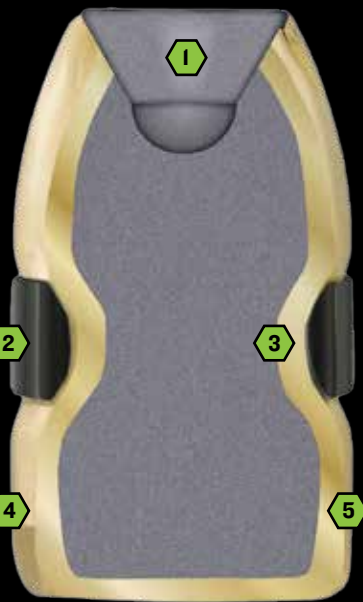

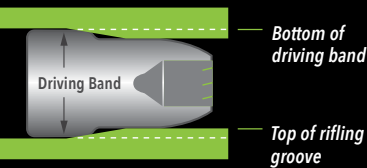

1 HOLLOW POINT
Cavity optimized for devastating
expansion and terminal performance

2 MECHANI-LOKT BELT
Locks jacket and core together for
supreme terminal performance

3 HOURGLASS SHAPE
Mechanically locks the lead in the
rear portion of bullet to ensure jacket
retention even when encountering
the toughest of barriers

4 PROVEN DESIGN
Bullet designed, tested and proven against
the exhausting barrier FBI ballistics test

5 DRIVING BAND
Located at the bullet's rear, the Driving Band is the
larger base diameter behind the bore diameter

6 SPIRAL NOSE CUTS
Ensures reliable
controlled expansion
through clogging barriers
such as wall board
and heavy clothing

**7 HIGH-PERFORMANCE
BRASS JACKET**
Provides consistent,
predictable expansion,
penetration and
weight retention

REMINGTON RP9

It's 18+1 rounds of double-stacked
capacity, in the most shootable
full-sized polymer-framed handgun
on the market. See page 92.

by the manufacturer. For more information on ballistics, see pages 207-210.

ULTIMATE DEFENSE

COMPACT HANDGUN

Designed with the concealed carry permit holder in mind to deliver big gun terminal performance out of shorter-barreled pistols and revolvers. This round has been engineered to provide optimal penetration and expansion even through heavy clothing at lower velocities for maximum stopping power. It's all of our premium features now finely tuned for your most important handgun.

FULL SIZE HANDGUN

Based on the same platform trusted by law enforcement professionals to protect the American way of life, now available for personal defense. Loaded with our high-performance Brass Jacket Hollow Point (BJHP), these rounds deliver massive expansion and deep penetration for ultimate stopping power. Premium nickel-plated cases resist corrosion and cycle dependably after extended storage. Available in the most popular pistol and revolver calibers.

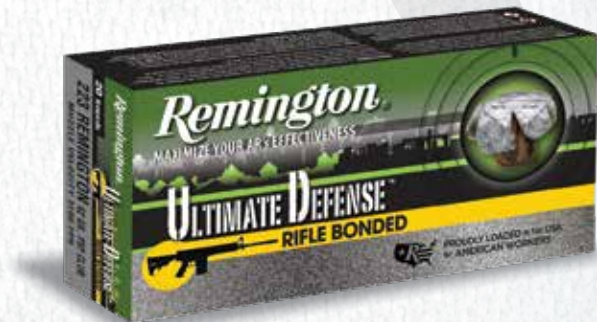

BUCKSHOT

These rounds deliver dense, devastating patterns and massive knockdown power when the stakes are at their highest. Short-range patterns in smoothbore barrels are tight and effective for one-shot confidence. New full power 12-gauge, and Managed-Redoil 12- and 20-gauge loads complete this line by offering buckshot products well suited to anyone's desire for maximizing their shotgun's effectiveness against an imminent threat. Our 410 load packs four lead 000 buckshot pellets to maximize effectiveness of the .45/.410 revolvers.

RIFLE BONDED NEW

It's the world-class accuracy and controlled expansion reliability you've come to expect in a bonded bullet, engineered to elevate your personal defense preparedness to a new level. New Ultimate Defense Rifle Bonded centerfire bullets are manufactured for ultimate bonded bullet performance, offering absolute reliability from point blank to 500 yards – and absolute peace of mind everywhere it matters most.

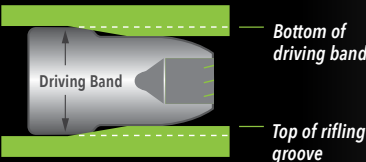

BUILT TO DEFEND WHEN IT MATTERS MOST.

1 EXCLUSIVE BRASS JACKET
With precision nose cuts controls expansion and optimizes energy transfer

3 NICKEL-PLATED CASES
To reduce oxidation and improve feeding and extraction

2 CASE MOUTH AND PRIMER WATERPROOFING
For maximum reliability

4 SPECIALLY TREATED POWDERS
To suppress muzzle flash

PRECISION STOPPING POWER

The bullet diameter directly ahead of the Driving Band is reduced from groove to bore diameter, so the bullet is precisely aligned before the Driving Band engages the rifling. The result: match-grade accuracy and reduced barrel friction at maximum velocities.

BY LEVER, OR BY CYLINDER, YOUR BEST BULLETS BAR NONE.

LEAD-ROUND NOSE
Offers greater penetration. Ideal for casual shooting, target shooting and training.

LEAD SEMI-WADCUTTER
Flat nose and sharp shoulder ensure clean, round holes on paper targets. Perfect for target practice.

RIMFIRE

PEAK PERFORMANCE
IN EVERY BOX.

We’re proud to offer one of the broadest selections of high-performance rimfire ammunition available today, and even prouder of the fact we continue to set the standard for accuracy and dependability industry-wide. To achieve this, every round is produced with the same tight tolerances and high level of care we apply to our centerfire ammo. From tin cans to small game to serious competitive pursuits, count on Remington to keep your rimfire dead-center.

22 GOLDEN BULLET

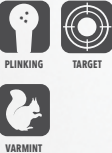

Legendary 22 Golden Bullet Plated RN and HP bullets are engineered for easy cycling and solid performance. High Velocity increases downrange energy, extending your effective range. Improved priming compound insures consistent ignition at a great value.

HIGH VELOCITY -
22 SHORT & 22 LONG RIFLE

Plated RN:

Plated HP:

22 TARGET

With 40-grain round nose bullets propelled by powder and primer charges of exacting consistency, Remington 22 Target ammunition delivers match-grade precision and championship performance in every round.

STANDARD VELOCITY -
22 LONG RIFLE

Lead RN:

CBEE 22

Combines low noise with excellent shot-to-shot consistency. It’s 33-grain Plated Truncated-Cone HP bullet is ideal for dispatching varmints and small game at close range as quietly as possible. It’s tiny report makes it an excellent choice for new shooters as well.

LOW NOISE /
LOW VELOCITY -
22 LONG RIFLE

Plated TCHP:

22 VIPER

These Plated Truncated Cone Solid Bullets are renowned for their smooth feeding in any automatic pistol or rifle. The large diameter of the flat nose imparts tremendous shock at the entry point, while the solid bullet retains all its weight to penetrate deep. These hyper-velocity loads hold their own at the target board as well. For fast-striking, 22 performance, Viper can’t be beat.

HYPER VELOCITY -
22 LONG RIFLE

Plated TCSB:

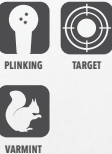

22 YELLOW JACKET

The smooth feeding and excellent penetration of a Truncated Cone combined with the stopping power and massive wound channel of a Hollow Point. These bullets are specially designed to deliver maximum on-game energy with excellent precision. Yellow Jacket leaves a hyper-velocity sting wherever they’re dispatched.

HYPER VELOCITY -
22 LONG RIFLE

Plated TCHP:

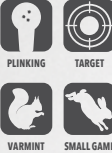

22 SUBSONIC

If a squirrel falls in the forest and there’s very little noise, chances are it just met up with our 22 Subsonic. Engineered for flawless performance with a suppressor, these 38-grain HP’s shatter records for on-game consistency without breaking the sound barrier. Great for plinking and target shooting as well.

SUBSONIC - 22 LONG RIFLE

Lead HP:

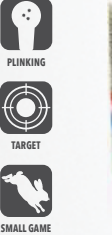

22 CYCLONE

Tin cans. Rabbits. Or a bulls-eye. High Velocity increases downrange energy, extending your effective range with 38-grain hollow point terminal performance. No matter what you put in your sights, Remington Cyclone is the perfect 22 rimfire ammunition for just about any occasion.

HIGH VELOCITY - 22 LONG RIFLE

Lead HP:

22 THUNDERBOLT

They’ve become the outstanding favorite of 22 owners the world over. These round nose bullets in high-velocity loads cover the broadest range of 22-caliber excitement. No wonder 22 Thunderbolt is our best-selling, and most popular round of all time.

UMC

REMINGTON UMC.
THE NAME
AMERICA TRUSTS.

For 150 years, the Union Metallic Cartridge Company name has been synonymous with innovative, high-quality ammunition. UMC has become a fixture in the shooting ranges and hunting grounds of America by delivering the best in shot-to-shot consistency and the latest technology at the right price. Simply put, no one delivers a better product more efficiently, and the results are proof - from point of purchase to point of impact.

UMC RIFLE CARTRIDGES

Loaded in the USA, value-priced and ideal for high-volume shooting, our UMC centerfire rifle ammunition is loaded in seven popular calibers, including the 308 Win, 7.62x39mm and 30 Carbine. The 45- and 50-grain jacketed hollow point loads in 223 Remington and 22-250 Remington are perfect for varmint hunters. Also available in 6.8mm Remington SPC and 30 Remington AR.

UMC LEADLESS
HANDGUN CARTRIDGES

From lead-free primers, to specially designed bullets, economical UMC LeadLess cartridges virtually eliminate lead exposure at the firing line. A must-have for shooters who frequent indoor ranges, its jacketed bullet actually prevents the vaporization of lead from the bullet's base upon firing. Standard bullet weights duplicate the ballistics of conventional loads.

UMC HANDGUN
CARTRIDGES

All UMC ammunition is loaded in Lonoke, Arkansas, using first-quality, factory-fresh brass and clean-shooting Kleanbore primers to provide the best value for high volume shooters.

REM OIL PRO³

GIVE YOUR FIREARMS PROTECTION CUBED, ONLY WITH REM OIL PRO³.

Win the war against corrosion, friction and wear before it begins with Rem Oil Pro³. This specially formulated gun care lubricant lays down a protective barrier that cleans grime from exposed metal surfaces while displacing non-visible moisture from metal pores, and lasts up to three to five times longer than other products. Its higher lubricity keeps actions running smoothly, stands up to high-volume use and protects both internal and external metal parts against metal-to-metal wear. Long live your firearms with Rem Oil Pro³.

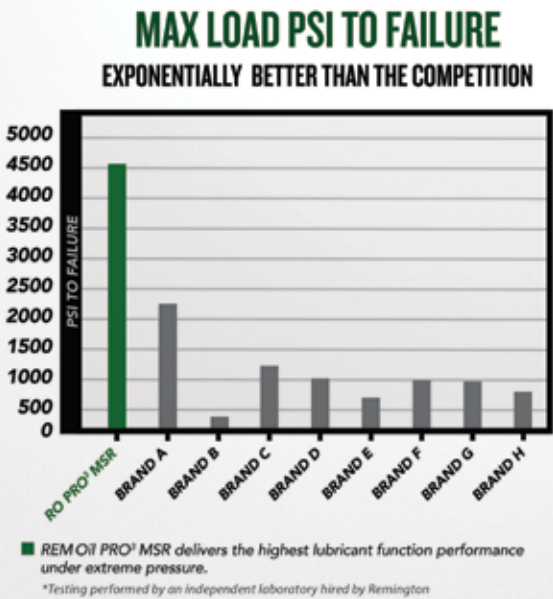

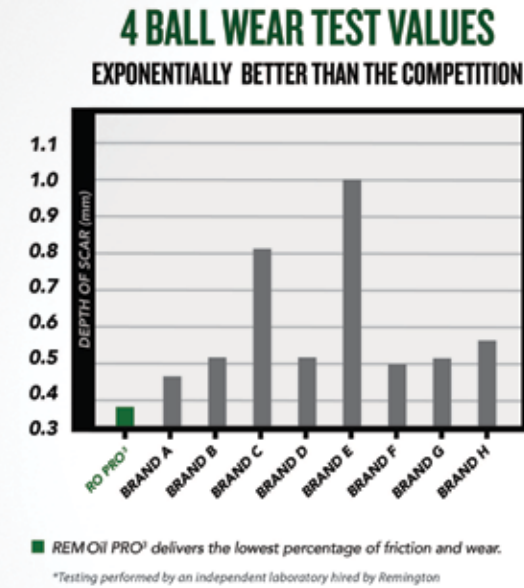

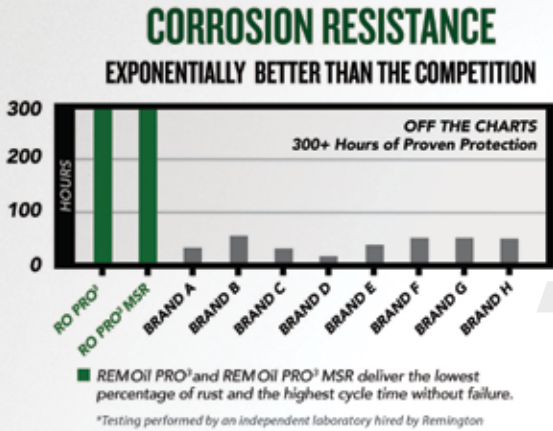

REM OIL PRO³

RANGE VALUE PACK

Rem Oil Pro³ MSR 10 oz. aerosol - specifically formulated to for semi- and full-auto firearms. And, Rem Action Cleaner removes powder residue and caked-on lubricants from actions and fire-control mechanisms. #17929

REM OIL

TODAY'S MOST
ADVANCED GUN CARE.
BY AMERICA'S MOST
TRUSTED GUNMAKER.

REM OIL

Quick, easy way to keep your firearms performing to their full potential. Rem Oil cleans dirt and grime from exposed metal surfaces, while displacing non-visible moisture from metal pores. It also protects internal and external metal parts from rust and corrosion. And the exclusive formula creates a thin, long-lasting film that keeps actions working smoothly by reducing metal-to-metal wear. Available in:

- 10-oz. aerosol can – #24027
- 6-oz. spray pump (MoistureGuard) – #18378
- 4-oz. aerosol can – #26610
- 2-oz. bottle with child-resistant cap – #18366
- 1-oz. bottle with child-resistant cap – #26617

REM OIL WIPES

Rem Oil Wipes are an efficient way to protect your firearms. Each wipe is treated with Rem Oil, for a quick and easy application of one of the world's most trusted cleaners and lubricants. The individually packaged Rem Oil Wipes are convenient for travel or in your field pack, while the sixty count canister is a perfect companion for everyone's workbench. Available in:

- 12 individually wrapped 6"x8" wipes – #18411
- 60-count pop-up canister – #18384
- Single packs in counter display – #18471

REM DRILUBE

- Formulated for superior lubricity without leaving any dust collecting residue behind and is perfect for protecting your firearm in sub-zero temperatures
- Teflon-based lubricant provides a tough, non-congealing film without the residue of dry graphite lubes
- Keeps firearms functioning dependably to -40°F
- Available in 4-oz. aerosol can – #18396

VOLUME VALUE PACK

Includes: Shotgun Cleaner (18 oz.) to blast away dirt, grease and grime with high pressure and Rem Oil (10 oz.), to lubricate and protect after cleaning. #18131

CLEAN ACTION VALUE PACK

Includes: Rem Action Cleaner (10.5 oz.) to easily remove powder residue and dirt plus, Rem Oil (10 oz.), to lubricate and protect after cleaning. #18154

All-in-one kit comes packed with all of the essentials to keep your firearm working effectively. Includes .5 oz. Rem All In, 2 oz. Rem Oil and 2 oz. Rem Action Cleaner. #17196

CLEANERS

REMINGTON MZL MUZZLELOADER BORE CLEANER

- Designed specifically for all muzzleloaders, but can be used in all barrels
- Express clean – removes even the toughest carbon and plastic fouling
- Safe for all bores
- Minimizes future build up
- Convenient nozzle tip applicator – no waste
- Available in 4-oz. bottle – #16375

REM ALL IN BORE CLEANER

- High-performance bore cleaner
- Eliminates carbon, plastic, lead and copper fouling
- Use in any bore – handgun, rifle, shotgun
- Keeps firearms clean and working to highest potential
- Convenient nozzle tip applicator – no waste
- Available in 4-oz. bottle – #19917

REM ACTION CLEANER

- Easily cleans dirt, powder residue and caked-on lubricants from disassembled actions and fire-control mechanisms
- Dries quickly and leaves no residue
- Available in:
 - 2 oz. squeeze bottle with child safe lid – #19924
 - 4 oz. aerosol can – #19925
 - 10.5 oz. aerosol can – #18395

SHOTGUN CLEANER

- Cleans trigger groups, gas ports, choke tube threading, receivers, chambers, barrels and magazine tubes
- Dissolves powder residue, fouled lubricants, burnt carbon deposits and gunk
- Blasts away gummy caked-on grime from hard-to-reach areas such as ejectors, firing pin assemblies, trigger components and bolt recesses
- Available in 18-oz. aerosol can – #18472

BRITEBORE SOLVENT

- Dissolves carbon and powder fouling, removes copper, lead and plastic deposits
- Handy size for field range use
- Low odor – contains no CFCs
- Available in:
 - 6-oz. aerosol can – #18394
 - 2 oz. squeeze bottle with child safe lid – #18367

40-X BORE CLEANER

- Formerly Remington Bore Cleaner
- 40-X name ties into the product's origins in Precision Benchrest Shooting
- Formulated for rifles to improve cleaning, accuracy and performance
- Fast and easy to use – no soaking or foul odors
- Contains high polishing compounds to make your bore mirror-clean
- Available in 4 oz. squeeze bottle with child safe lid – #18397

SQUEEG-E

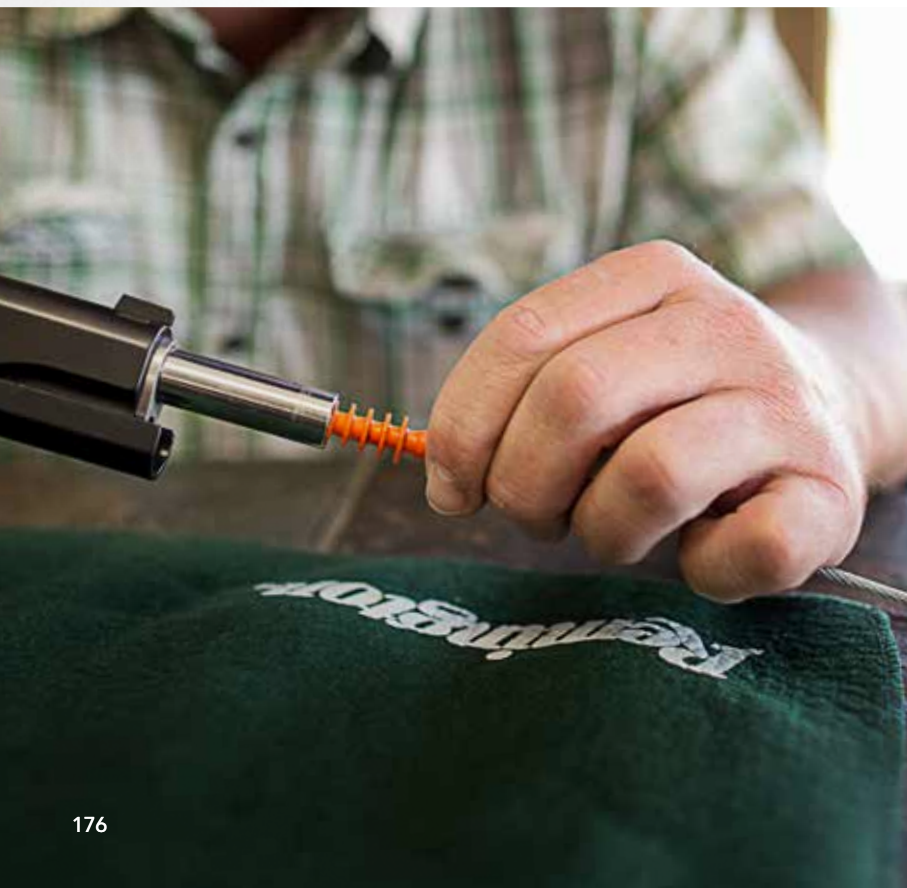

SUPERIOR GUN CARE IN EVERY WAY.

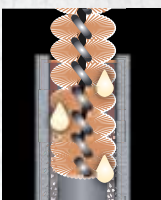

REM SQUEEG-E

- With no patches, saves money and eliminates waste
- Quickly cleans lands and grooves in one pass
- Save up to 15 minutes per gun
- Easy to use with cable or rod
- Available for the following calibers and gauges:

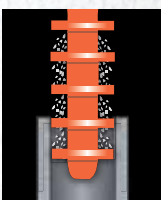

.22 / .223 / 5.56mm	#17123	.40 / 10 mm	#17127
.243 / .25	#17125	.44 / .45	#17128
.270 / 7mm	#17122	.50 Cal / 410 Bore	#17129
.30 / 7.62mm	#17124	12 / 16 Gauge	#17120
.357 / .380 / .38 / 9mm	#17126	20 / 28 Gauge	#17121

LESS TIME CLEANING MEANS MORE TIME FOR EVERYTHING ELSE.

STEP 1
To remove carbon and all other fouling, lubricate a bore brush with REM All-In bore cleaner and pass it through the barrel.

STEP 2
Easily attach your caliber-specific Squeeg-E to your cable or rod and pull from chamber to muzzle. One pass is all it takes to remove all debris.

STEP 3
Squeeg-E cleans quickly and easily with just soap and water.

REMOVES ALL DEBRIS WITH JUST ONE PASS.

Pull your caliber-specific Squeeg-E through the barrel and see the difference. With just one pass, your barrel is completely free of debris and ready to perform to its full potential.

BEFORE

AFTER

SAVE TIME. SAVE MONEY. REDUCE WASTE.

With just one pull, Squeeg-E saves you time. And with no patches, it eliminates waste and saves money, paying for itself year after year.

INTERCHANGEABILITY CHART

CARTRIDGES WITHIN GROUPS SHOWN ARE INTERCHANGEABLE. Other substitutions should not be made without specific recommendation of the firearms manufacturer since improper combinations could result in firearm damage or personal injury.

CENTERFIRE	
25-20 Remington	38 S&W
25-20 W.C.F.	38 Colt New Police
25-20 Win	380 Webley
25-20 Win High Speed	38 Colt Special (SEE NOTE B & D)
25-20 Marlin	38 S&W Special (SEE NOTE B & D)
25 W.C.F.	8 S&W Special Mid-Range (SEE NOTE B & D)
6mm Remington	38 Special Targetmaster (SEE NOTE B & D)
244 Remington	38 Special +P (SEE NOTE B & D)
25 Automatic	38-44 Special +P (SEE NOTE B & D)
5 Auto. Colt Pistol (ACP)	38 Special (SEE NOTE B & D)
25 (6.35mm) Automatic	38 Special Flat Point (SEE NOTE B & D)
6.35mm Browning	38 Short Colt in 38 Long Colt but not conversely. Both can be used in 38 Special.
7mm Express, Remington	38 Marlin (SEE NOTE A)
280 Remington	38 Win (SEE NOTE A)
30-30 Sav.	38 Remington (SEE NOTE A)
30-30 Win	38-40 Win (SEE NOTE A)
30-30 Win Accelerator (SEE NOTE A)	38 W.C.F. (SEE NOTE A)
30-30 Marlin	38 Automatic in 38 Super +P - but not conversely
30-30 Win High Speed	380 Automatic
30 W.C.F.	9mm Browning Short (Corto Kurz)
32 Colt Automatic	9mm Luger (SEE NOTE E)
32 Auto. Colt Pistol (ACP)	9mm Parabellum (SEE NOTE E)
32 (7.65mm) Automatic	44 S&W Special (SEE NOTE F)
7.65mm Automatic Pistol	44 Marlin
7.65mm Browning (not interchangeable with 7.65mm Luger)	44 Win
32 Short Colt in 32 Long Colt but not conversely (SEE NOTE C)	44 Remington
32 S&W in 32 S&W Long but not conversely	44-40 Win
32 S&W Long	44 W.C.F.
32 Colt New Police	45-70 Government
32 Colt Police Positive	45-70 Marlin
32 W.C.F. (SEE NOTE A)	45-70 Win
2 Win (SEE NOTE A)	45-70-405
32-20 Win. High Speed (SEE NOTE A)	
32-20 Colt L.M.R (SEE NOTE G)	
32-20 W.C.F. (SEE NOTE G)	
32-20 Win (SEE NOTE G)	
32-20 Marlin (SEE NOTE G)	
RIMFIRE	
	22 W.R.F.
	22 Remington Special
	22 Win. Model 1890 in a 22 Win. Mag. Rimfire - but not conversely

NOTE A: High-speed cartridges must not be used in revolvers. They should be used only in rifles made especially for them. **NOTE B:** Ammunition with "+P" on the case headstamp is loaded to higher pressure. Use only in firearms designated for this cartridge and so recommended by the gun manufacturer. **NOTE C:** Not for use in revolvers chambered for 32 S&W or 32 S&W Long. **NOTE D:** All 38 Special cartridges can be used in 357 Magnum revolvers but not conversely. **NOTE E:** 9mm sub machine gun cartridges should not be used in handguns. **NOTE F:** 44 Russian and 44 S&W Special can be used in 44 Remington Magnum revolvers but not conversely. **NOTE G:** Not to be used in Win. M-66 and M-73.

Weights, stock dimensions, checkering pattern and wood grain may vary according to the individual firearm. Remington reserves the right to change or modify its products without notice. Pricing may vary by model, specification, color, size and availability. Follow the safety rules printed in firearms instruction books and on ammunition boxes. If you do not have an instruction book for your Remington firearm, write to Remington Arms Company, LLC, 870 Remington Drive, PO Box 700, Madison, NC 27025, for a free copy or visit our website at www.remington.com/manuals. Please specify the model and serial number. The firearms herein have been photographed with their actions closed to properly showcase their features. In actual practice, any firearm not in use must be left with ammunition removed, action open and safety on. Consumer Information, Arms Service, Parts and Repairs and Custom Shop: (800) 243-9700.
